Hi Smilee team,

Congratulations on the TGC Capital Partners investment and the push into new markets. Your demos already have a “**SWE DEMO**” button, so I assume Sweden is next.

Getting into Swedish dealers is the hard part. TGC can open the door to a dealer network, but each dealer still needs a reason to say yes. So I picked one real Swedish dealer group, **Börjessons Bil** (7 sites, 491 cars in stock, VW Group brands), and did the homework a seller rarely has time for.

The finding is simple and checkable: **Börjessons' chat is staffed weekdays 09:00–17:00**. That's 40 of the week's 168 hours. Their own buying guide sends buyers to a person for trade-in and financing, and their contact form promises a reply “within 24 hours”. CarWebshop covers exactly that gap.

Inside: the dealer brief, the five findings with screenshots, CarWebshop on Börjessons' real pages, a simple value model, and a Swedish outreach sequence your team could send this week.

1

Research

Dealer facts, findings and who to contact.

2

Concept

CarWebshop on their real pages, in Swedish.

3

Outreach

LinkedIn note, e-mail and follow-up, ready to send.

I can make packs like this for the 10–20 dealers you want to win first. Shall we take 20 minutes?

Best regards,

Kira Krysanov

A good chat, with office hours

01 The chat is staffed weekdays 09:00–17:00 only KEY FINDING

“Chatten ... är tillgänglig alla vardagar 09:00–17:00.” That’s 40 of the week’s 168 hours. Evenings and weekends, when many people browse cars, have no answer.

→ [Smilee answers the other 128 hours, in Swedish.](#)

02 The chat closes an hour before customer service HIGH

Customer service is open weekdays 09:00–18:00, the chat 09:00–17:00. The busy after-work hour has no chat.

→ [Smilee covers 17:00–09:00 and weekends, with hand-over to the hosts in the morning.](#)

03 Trade-in and financing require a person HIGH

Step 4 of their buying guide: “Kontakta oss när du hittat rätt – vi hjälper dig med inbyte, finansiering och det praktiska.”

→ [CarWebshop’s trade-in valuation and financing calculator, inside the chat.](#)

04 The contact form promises a reply within 24 hours MEDIUM

“...kontakta oss så återkopplar vi till dig inom 24 timmar.” A buyer writing on Friday evening may hear back on Monday, and may have bought elsewhere by then.

→ [Instant answers, and a test drive booked in the same conversation.](#)

05 Seven sites, one chat MEDIUM

Buyers must pick the right site in forms (“Välj anläggning”). The chat example on the site ends in “boka ett möte med en säljare”.

→ [Smilee routes each lead to the right site’s sales team, with car, trade-in and slot attached.](#)

Börjessons' chat is open 40 hours a week. Carbuyers browse all 168.

No redesign. There are big mistakes in progress as they are today, with Smilee. CarWebshop added 8 answers in Swedish in the evening and at the weekend, values four traders in, besides the test drive and handle a warm lead to the right site in the morning.

Why not "replace your chat"

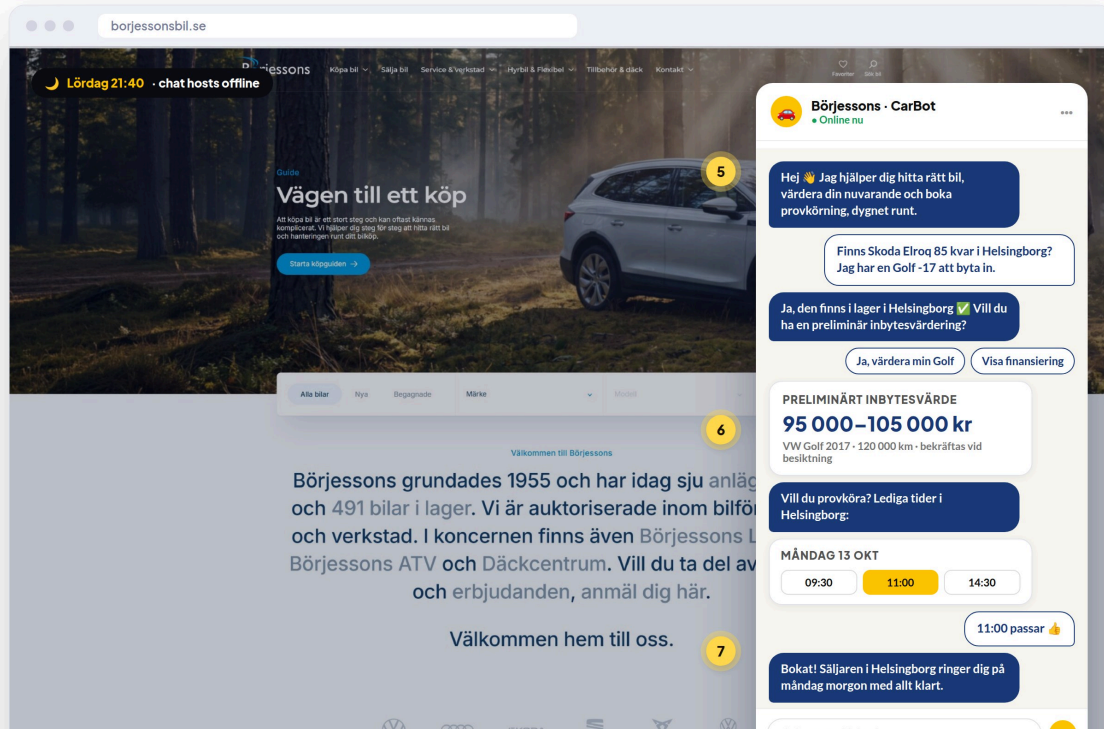

Börjessons clearly values personal contact. The pitch is **"keep your hosts, add the hours they can't cover"**, which is an easier yes than a switch.

Saturday evening, and Monday morning

SCENE 2 · SATURDAY 21:40

A buyer finds a car. Smilee closes the gap until Monday.

On the same homepage, Smilee answers in Swedish, values the trade-in, offers a test-drive slot at the nearest site and sends a qualified lead to that site's sales team. Today's digital hosts keep the daytime chat; Smilee covers the other 128 hours and the heavy lifting.

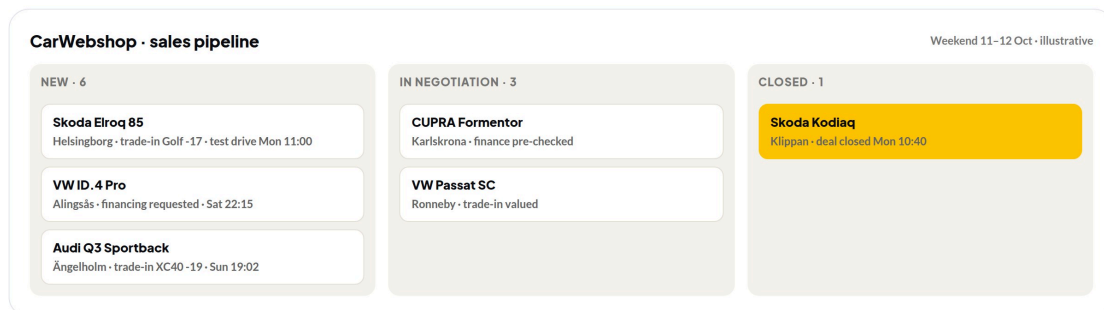

SATURDAY 21:40: STOCK CHECK, TRADE-IN VALUE AND A TEST DRIVE BOOKED IN SWEDISH

SCENE 4 · MONDAY 08:30

The weekend's buyers, waiting in the pipeline, sorted by site.

Every evening and weekend conversation becomes a lead with the car, trade-in and test-drive slot attached, routed to the right one of Børjessons' seven sites. Sales starts the week with booked appointments instead of a voicemail list.

MONDAY 08:30: THE WEEKEND'S BUYERS IN THE PIPELINE, ROUTED TO THE RIGHT SITE

A simple model to fill in with Börjessons

We don't know Börjessons' traffic or conversion, so this is a worked example with stated assumptions, for Smilee's seller to complete with the dealer.

ASSUMPTION (ILLUSTRATIVE)	EXAMPLE
Buyer enquiries per month, all channels	400
Share arriving outside chat hours	50%
Out-of-hours enquiries per month	200
Extra leads captured with 24/7 answers (+20%)	40
Lead-to-sale conversion	8%
Extra cars sold per month	≈ 3
Gross profit per used car	SEK 15,000
Extra gross profit per month	≈ SEK 45,000

Every number above is an example to replace with Börjessons' own data. Smilee publishes "+45% more leads"; this model deliberately assumes less.

What the dealer gets

- Answers 24/7, in Swedish, without extra staff.
- Trade-in, financing and test drives handled before the seller calls.
- Leads routed to the right site, with the car and the slot attached.
- Hosts kept for the daytime personal touch.
- Low-risk start: Smilee's "10 free leads every month" offer.

The pitch in one line: **"Keep Hanna and Beatrice. Add the 128 hours they can't cover."**

Hej [Namn], en sak till: i er köpguide hänvisas inbyte och finansiering till en säljare. I vår idé görs båda direkt i chatten, även på lördagskvällen, och säljaren får leaden på måndag morgon. Bifogar en sida.

Dag 2 · Ämne: Börjessons chatt efter kl. 17

Hej [Namn],

Er chatt med digitala hallvårdar är personlig och bra, men den är bemannad vardagar 9–17. Det är 40 av veckans 168 timmar. Kvällar och helger, när många letar bil, får köparen vänta, och formuläret lovar svar inom 24 timmar.

Smilee CarWebshop tar över när hallvårdarna går hem: svarar på svenska, värderar inbytet, räknar på finansiering och bokar provkörning på rätt anläggning. Säljaren får en färdig lead på morgonen.

Vi har gjort en kort idé på er egen sajt. Ni kan börja med 10 kostnadsfria leads.

Har du 20 minuter nästa vecka?

Your first Swedish dealers, prepared one by one

This pack took the homework off one dealer. I can do the same for the 10–20 dealers you want to win first, in Sweden or Finland.

Per dealer you get

- Dealer brief and who to contact
- Findings from their own website, with screenshots
- CarWebshop concept on their real pages, in their language
- A value model to fill in together
- LinkedIn note, e-mail and follow-up

How it works

- You name the dealers, or I propose them
- I build the packs: semi-automated research, checked by hand
- Your sellers send them from their own accounts
- I adjust from the replies
