Thank *you*

Thank you for choosing these tennis planner stickers. They're made to bring a little match-day energy to every page.

WHAT'S INCLUDED

Tennis-Stickers-PNG.zip — 69 stickers as transparent PNG files, in four folders: icons, words, planner and quotes

Printable Sheets — a 6-page PDF to print on sticker paper

This guide — how to use them

i. GoodNotes

Unzip the PNG pack in the Files app. In GoodNotes, open the Stickers tool and import the PNG files to make your own sticker collection, or use the Image tool to add any sticker to a page.

ii. Notability

Tap the + button, choose an image from Files or Photos, and pick a sticker. Drag the corners to resize it.

iii. Other apps

Noteshelf, Samsung Notes, Xodo, Canva and most planner apps let you insert an image. The transparent background means each sticker sits neatly on any page.

iv. Printing

Print the sheets at 100% (actual size) on full-page sticker paper, then cut around the white edge. For print-then-cut machines, upload the individual PNG files.
