EDUCATION

BBA, Marketing

Haaga-Helia University of Applied Sciences · 2010–2014

HOW I WORK

I start from the user's goal, sketch flows before screens, prototype in Figma, and check designs against data after launch. Ten years of video and motion work help me design moments that feel alive, not just usable.

Designer with 10+ years in visual, brand and video design for Finnish tech companies, and hands-on UI/UX work since 2020. I design and prototype in Figma, work closely with developers to ship, and use campaign and website data to decide what to improve next. I'm now focusing on product design for consumer apps. For Musopia, I've included a retention concept for the JustinGuitar app's first month, with research, hi-fi UI, a clickable prototype and an experiment plan.

Experience

May 2023 – Present
Helsinki

Videobot

Visual Brand Manager · Content Strategist & Producer

- Own the company website's UX/UI: structure, page design and continuous improvement
- Lead brand initiatives to keep one consistent visual identity across web, marketing and video
- Blend creative ideas with data to choose, test and iterate on campaigns
- Plan and produce content tailored to specific audiences, and develop strategies to grow brand visibility

Feb 2020 – Jan 2023
Helsinki

Leadoo

Visual Brand Designer · UI/UX Designer · Video Producer

- Designed website UI and content for a user-friendly experience, and worked closely with the developer to ship and maintain it
- Shaped the company's brand identity and visual design language
- Built and maintained reusable brand asset libraries and marketing materials
- Ran video production end to end: strategy, scripting, filming, editing and publishing

Sep 2015 – Feb 2020
Helsinki

Management Events

Video Marketing Specialist

- Produced targeted video and YouTube content that supported lead generation and turned prospects into customers
- Boosted brand visibility across operations in 11 countries

May 2013 – Present
Helsinki

Lumux

Private Entrepreneur

- Corporate video and content: explainers, recruitment films and event coverage, with video strategies built around each client's goals
