

RECHANNELLED × MANCHESTER EVENING NEWS

The M.E.N, exactly as it is. Plus one front door for every subscriber.

No redesign. These are manchestereveningnews.co.uk and Reachsubs pages as they are today, with the standard reChannelled widget added and configured with the M.E.N's own topics: Premium, print delivery and vouchers.

SCENE 1 · HOMEPAGE

Buy a paper, funeral notices, jobs, public notices... and no Help.

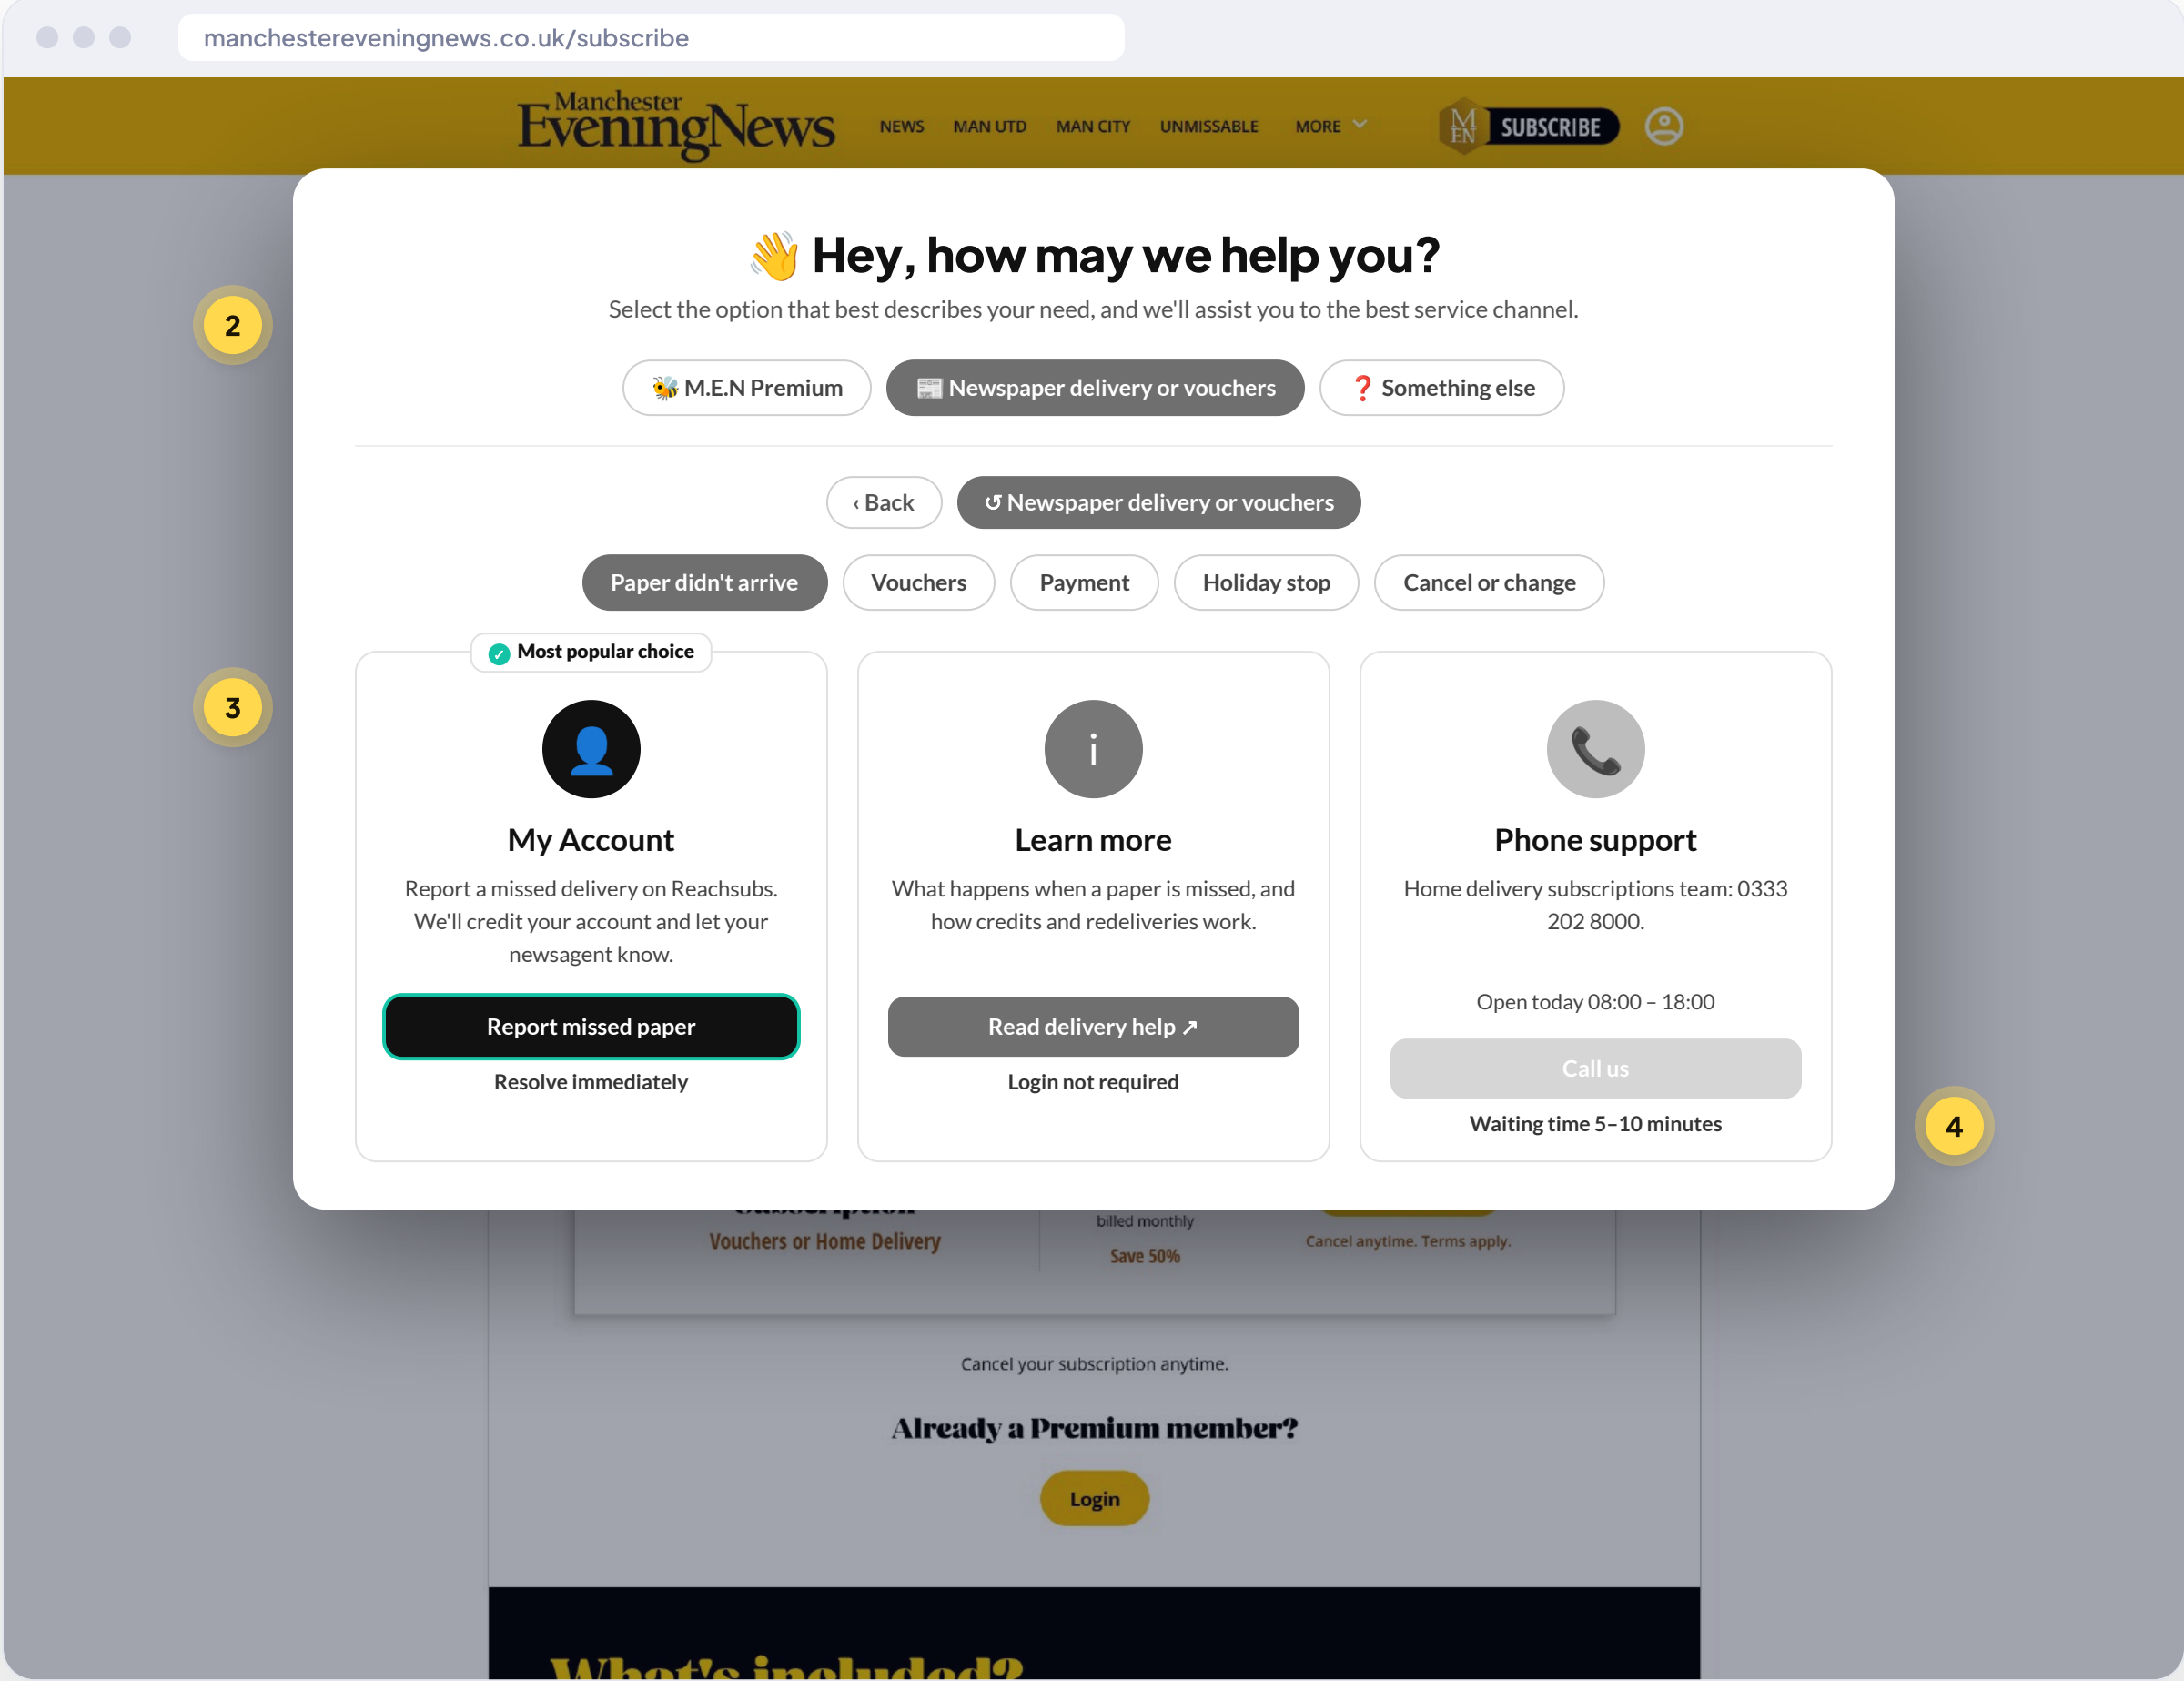

The M.E.N top bar serves many local needs, but subscribers have nowhere to go. reChannelled adds one small button for Premium and print subscribers. Nothing else moves.

SCENE 2 · M.E.N PREMIUM PAGE

One front door for Premium and print subscribers.

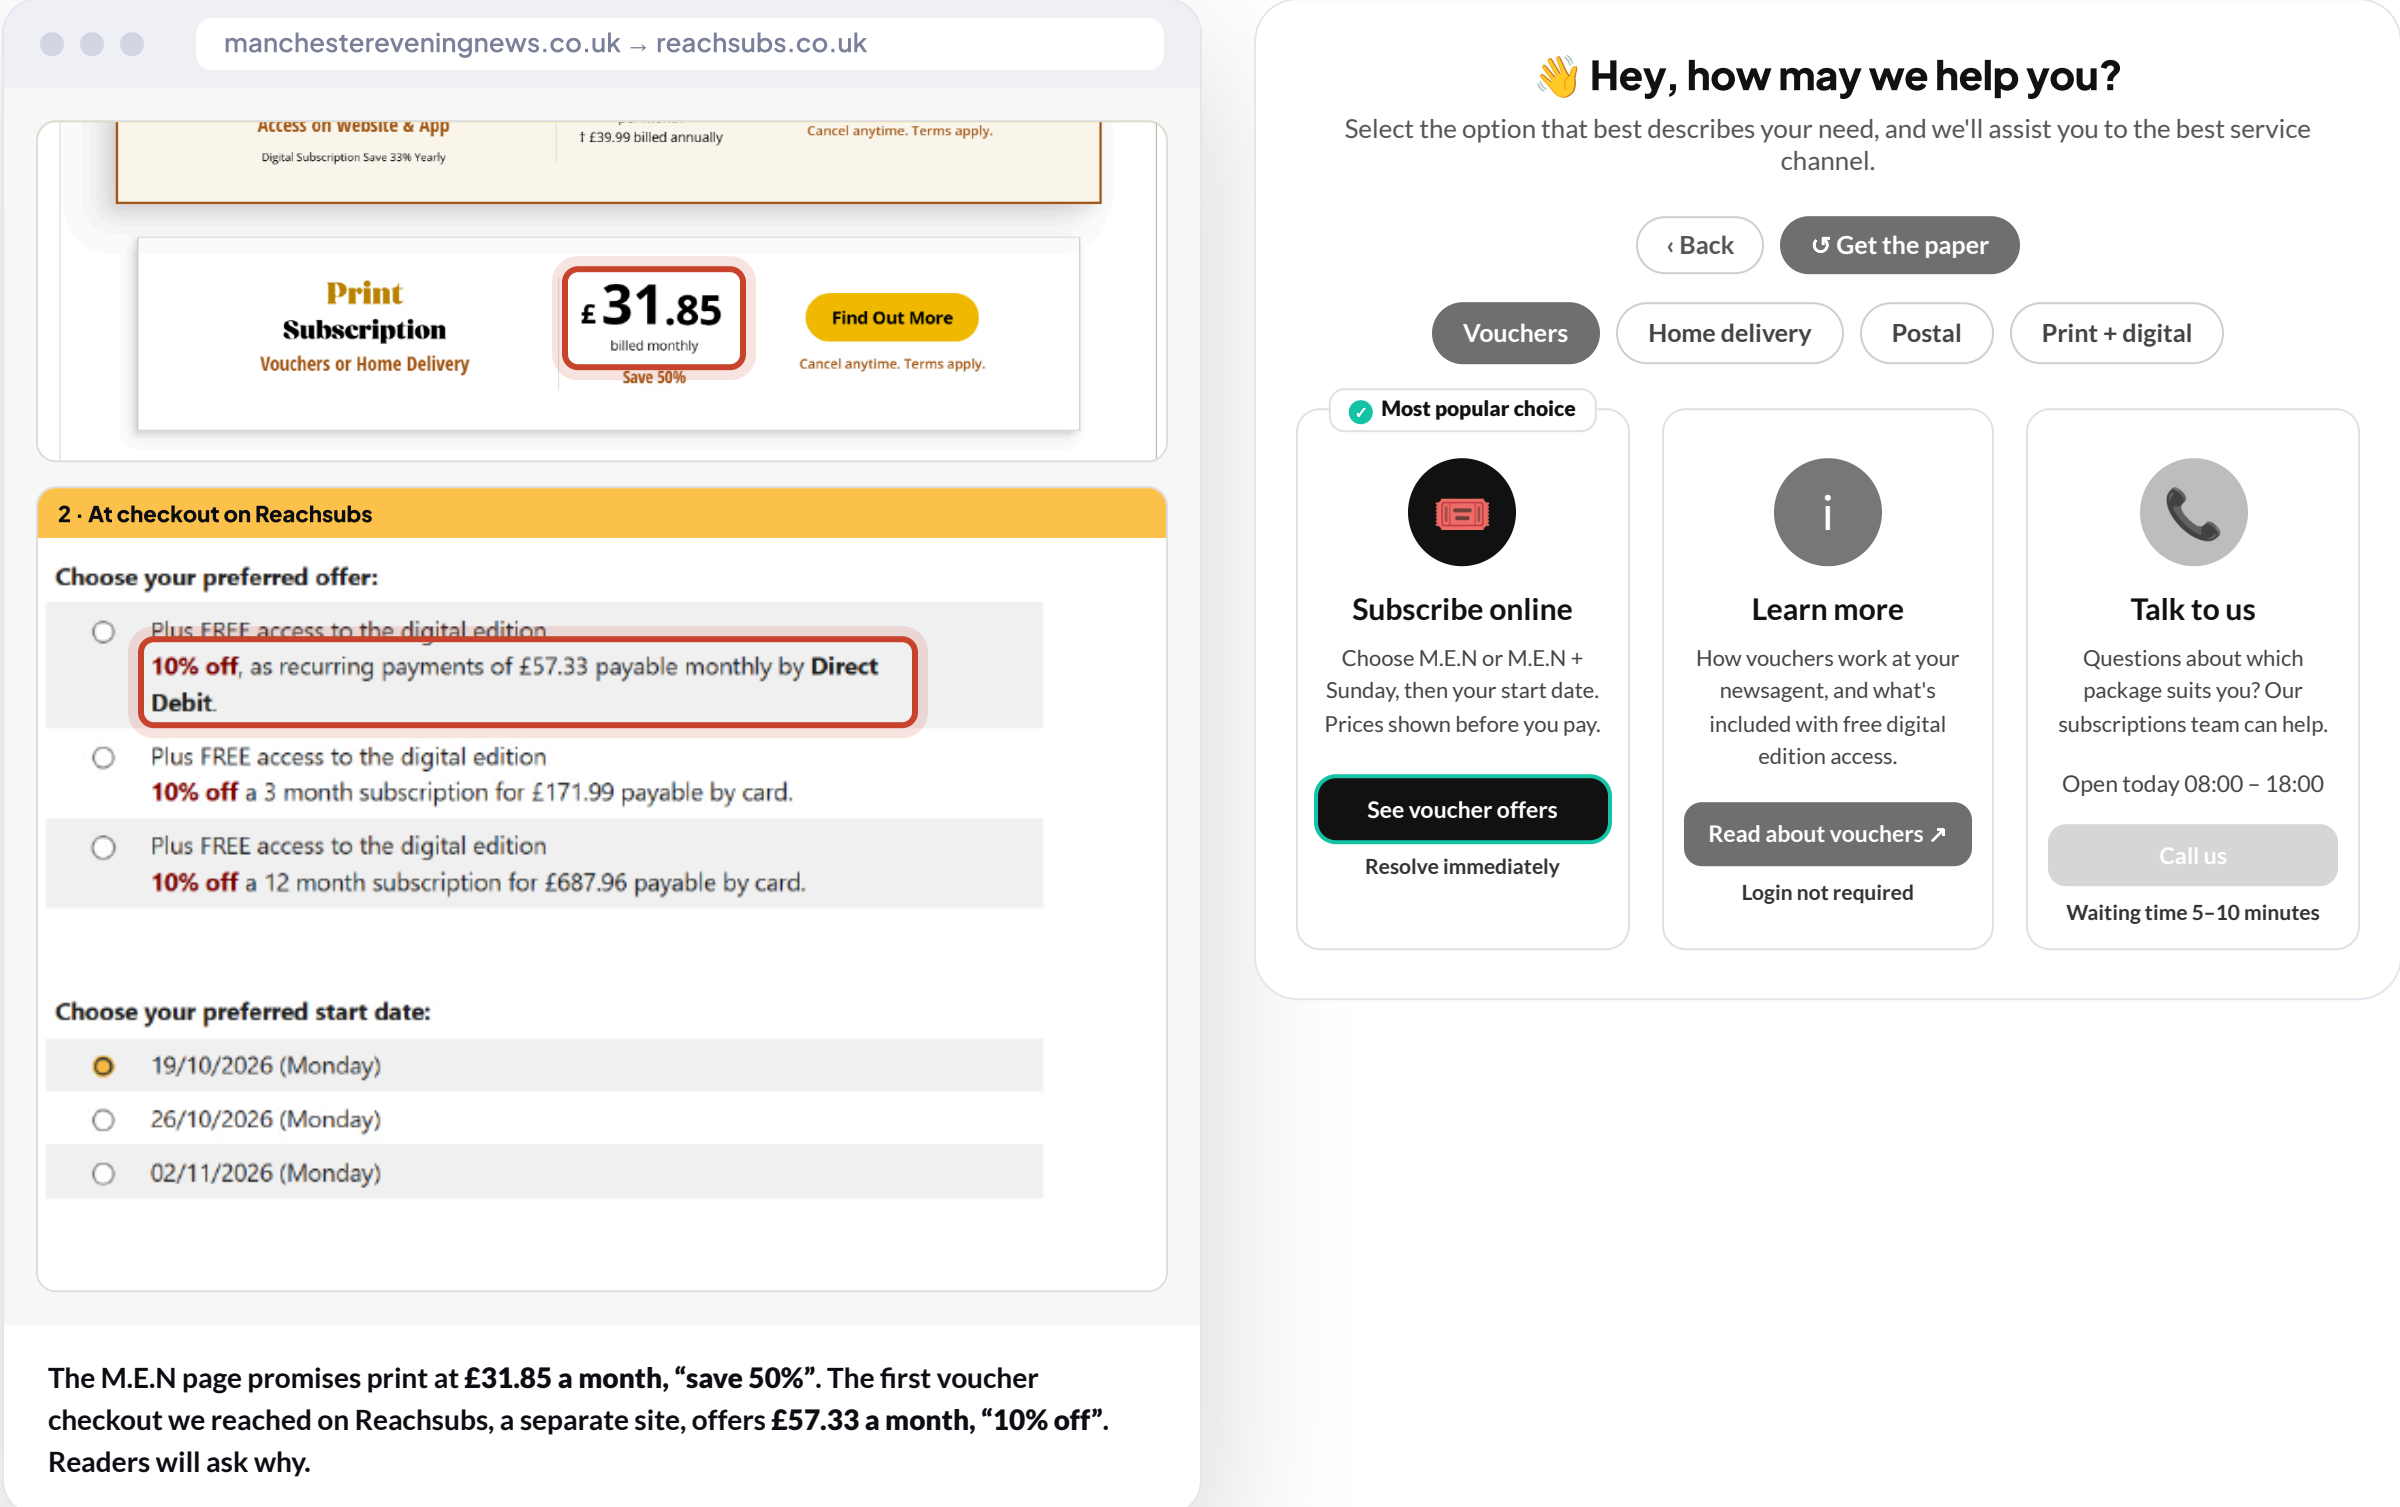

Today Premium lives on manchestereveningnews.co.uk while print subscriptions live on Reachsubs, a separate site. reChannelled asks which one the reader has, and sends them to the fastest fix, with an honest phone option.

SCENE 3 · PRINT OFFERS ON TWO SITES

Two sites, two prices: the reader does the maths.

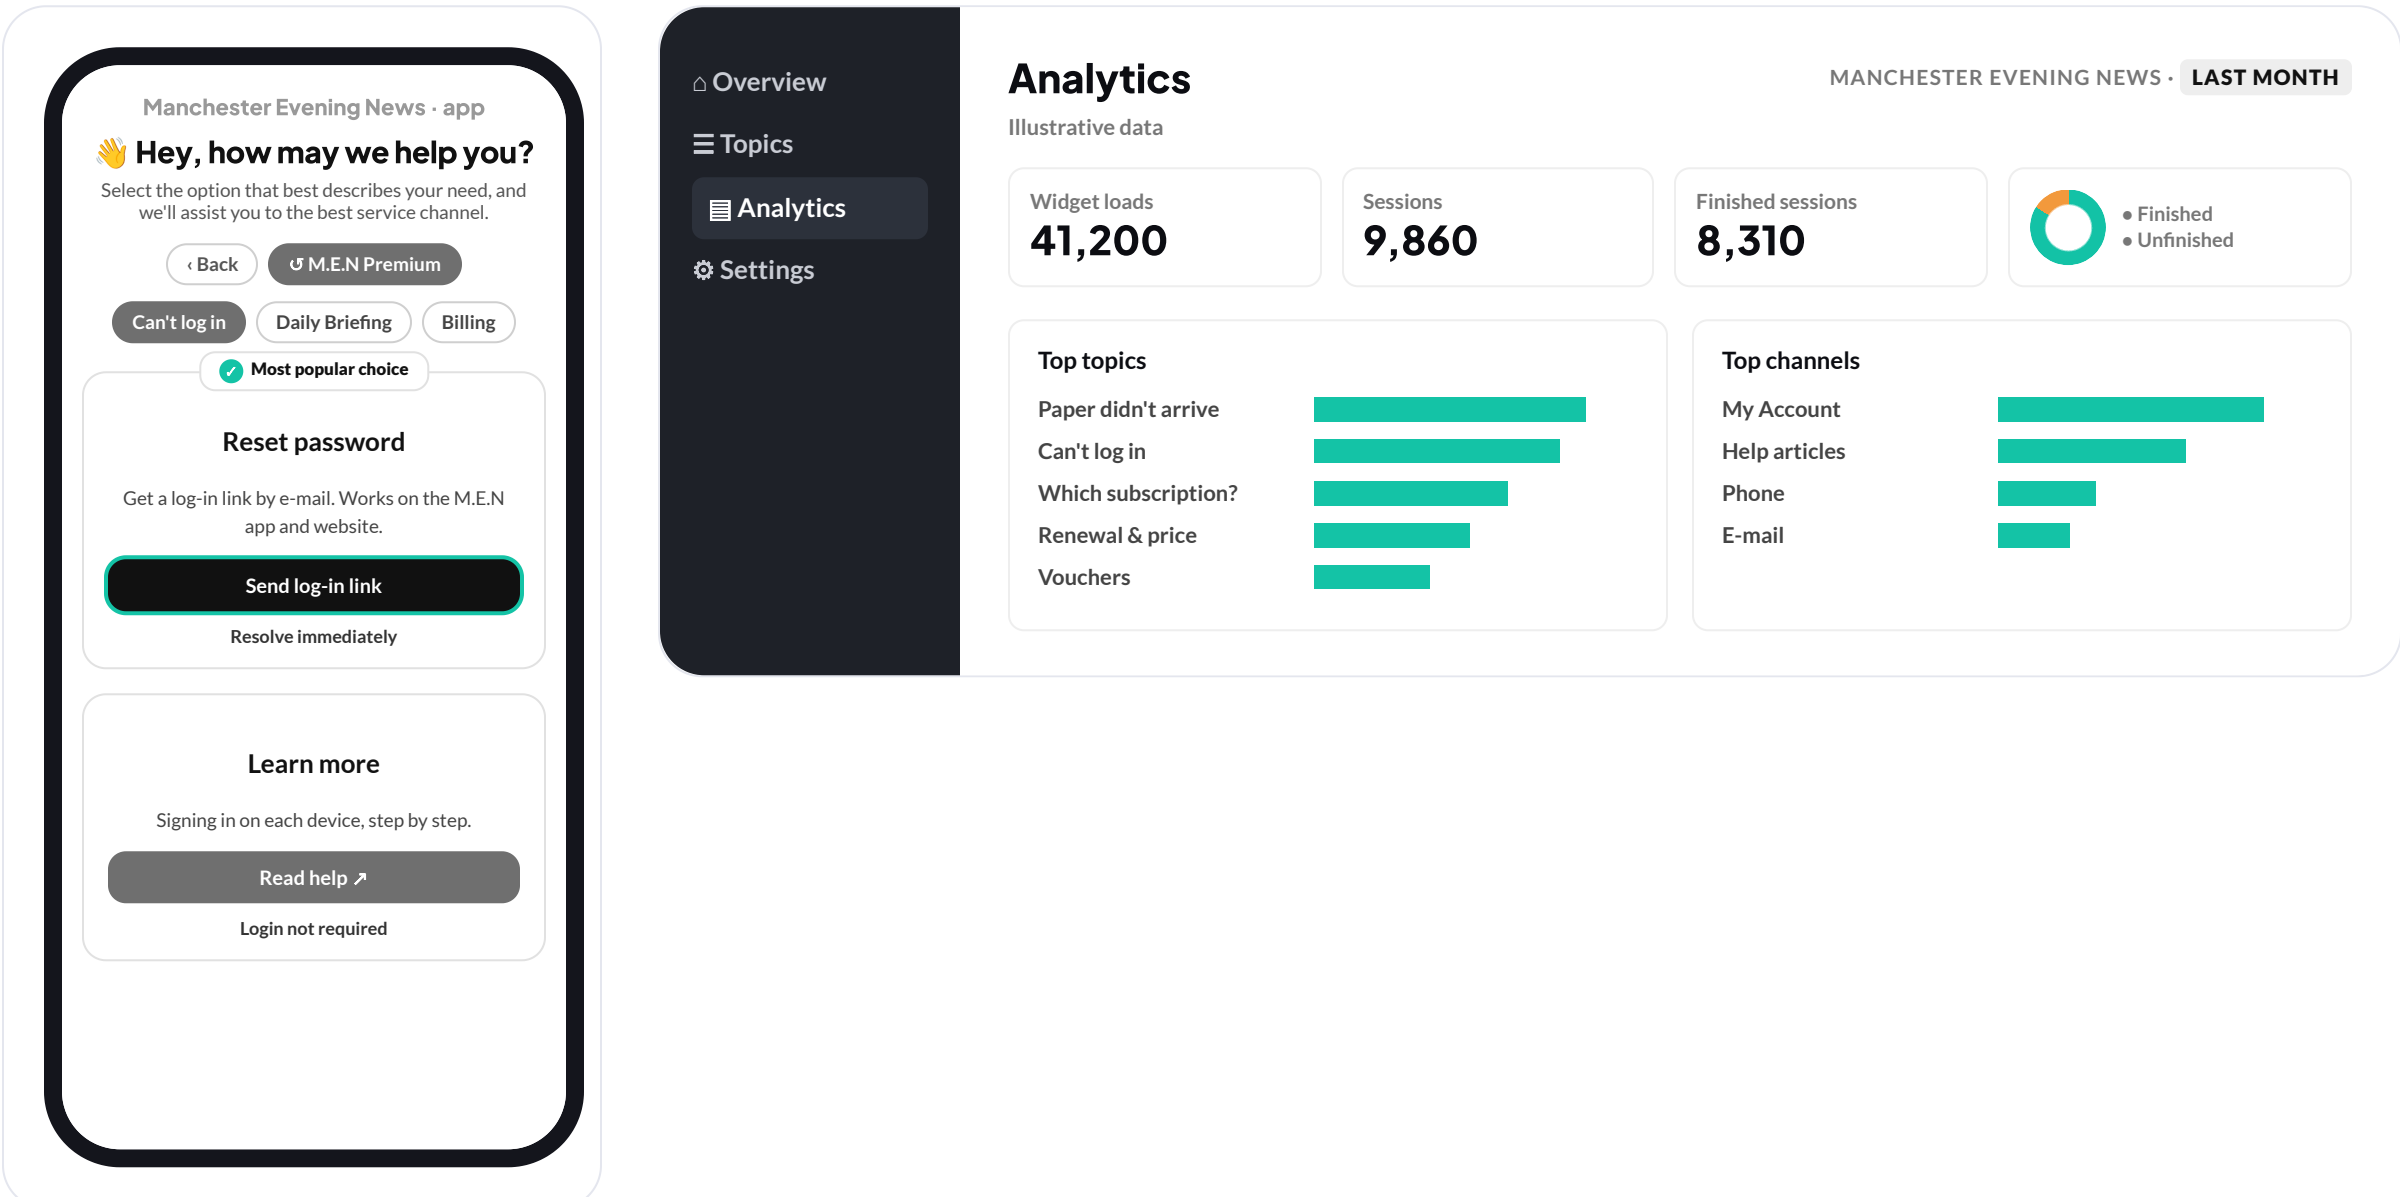

The M.E.N subscribe page and the Reachsubs checkout are run separately and show different print prices. reChannelled can turn "which paper subscription is right for me?" into a clear choice, with a person on hand.

SCENE 4 · MOBILE AND ANALYTICS

Same help in the app. Live insight for the Customer team.

On the M.E.N app the widget opens as a stacked view. In the admin panel the Customer team sees widget loads, sessions, top topics and channels for the M.E.N in real time.

What changes on manchestereveningnews.co.uk

DESIGN

Nothing

Your pages stay exactly as they are. The widget adapts to the site's design and typography.

SET-UP

Plug-and-play

An easy-to-install widget for the website and app, with its own configuration for this brand.

TIME TO LIVE

A few days

Topics and channels managed in the cloud admin panel by the Customer team, not IT.
