

RECHANNELD ✕ THE MIRROR

The Mirror, exactly as it is. Plus one front door for Mirror+ readers.

No redesign. These are mirror.co.uk pages as they are today, with the standard reChannelled widget added and configured with the Mirror's own topics: Mirror+, print delivery and vouchers, and the tablet edition.

SCENE 1 · HOMEPAGE

A Mirror+ subscriber has a question. Today, where do they go?

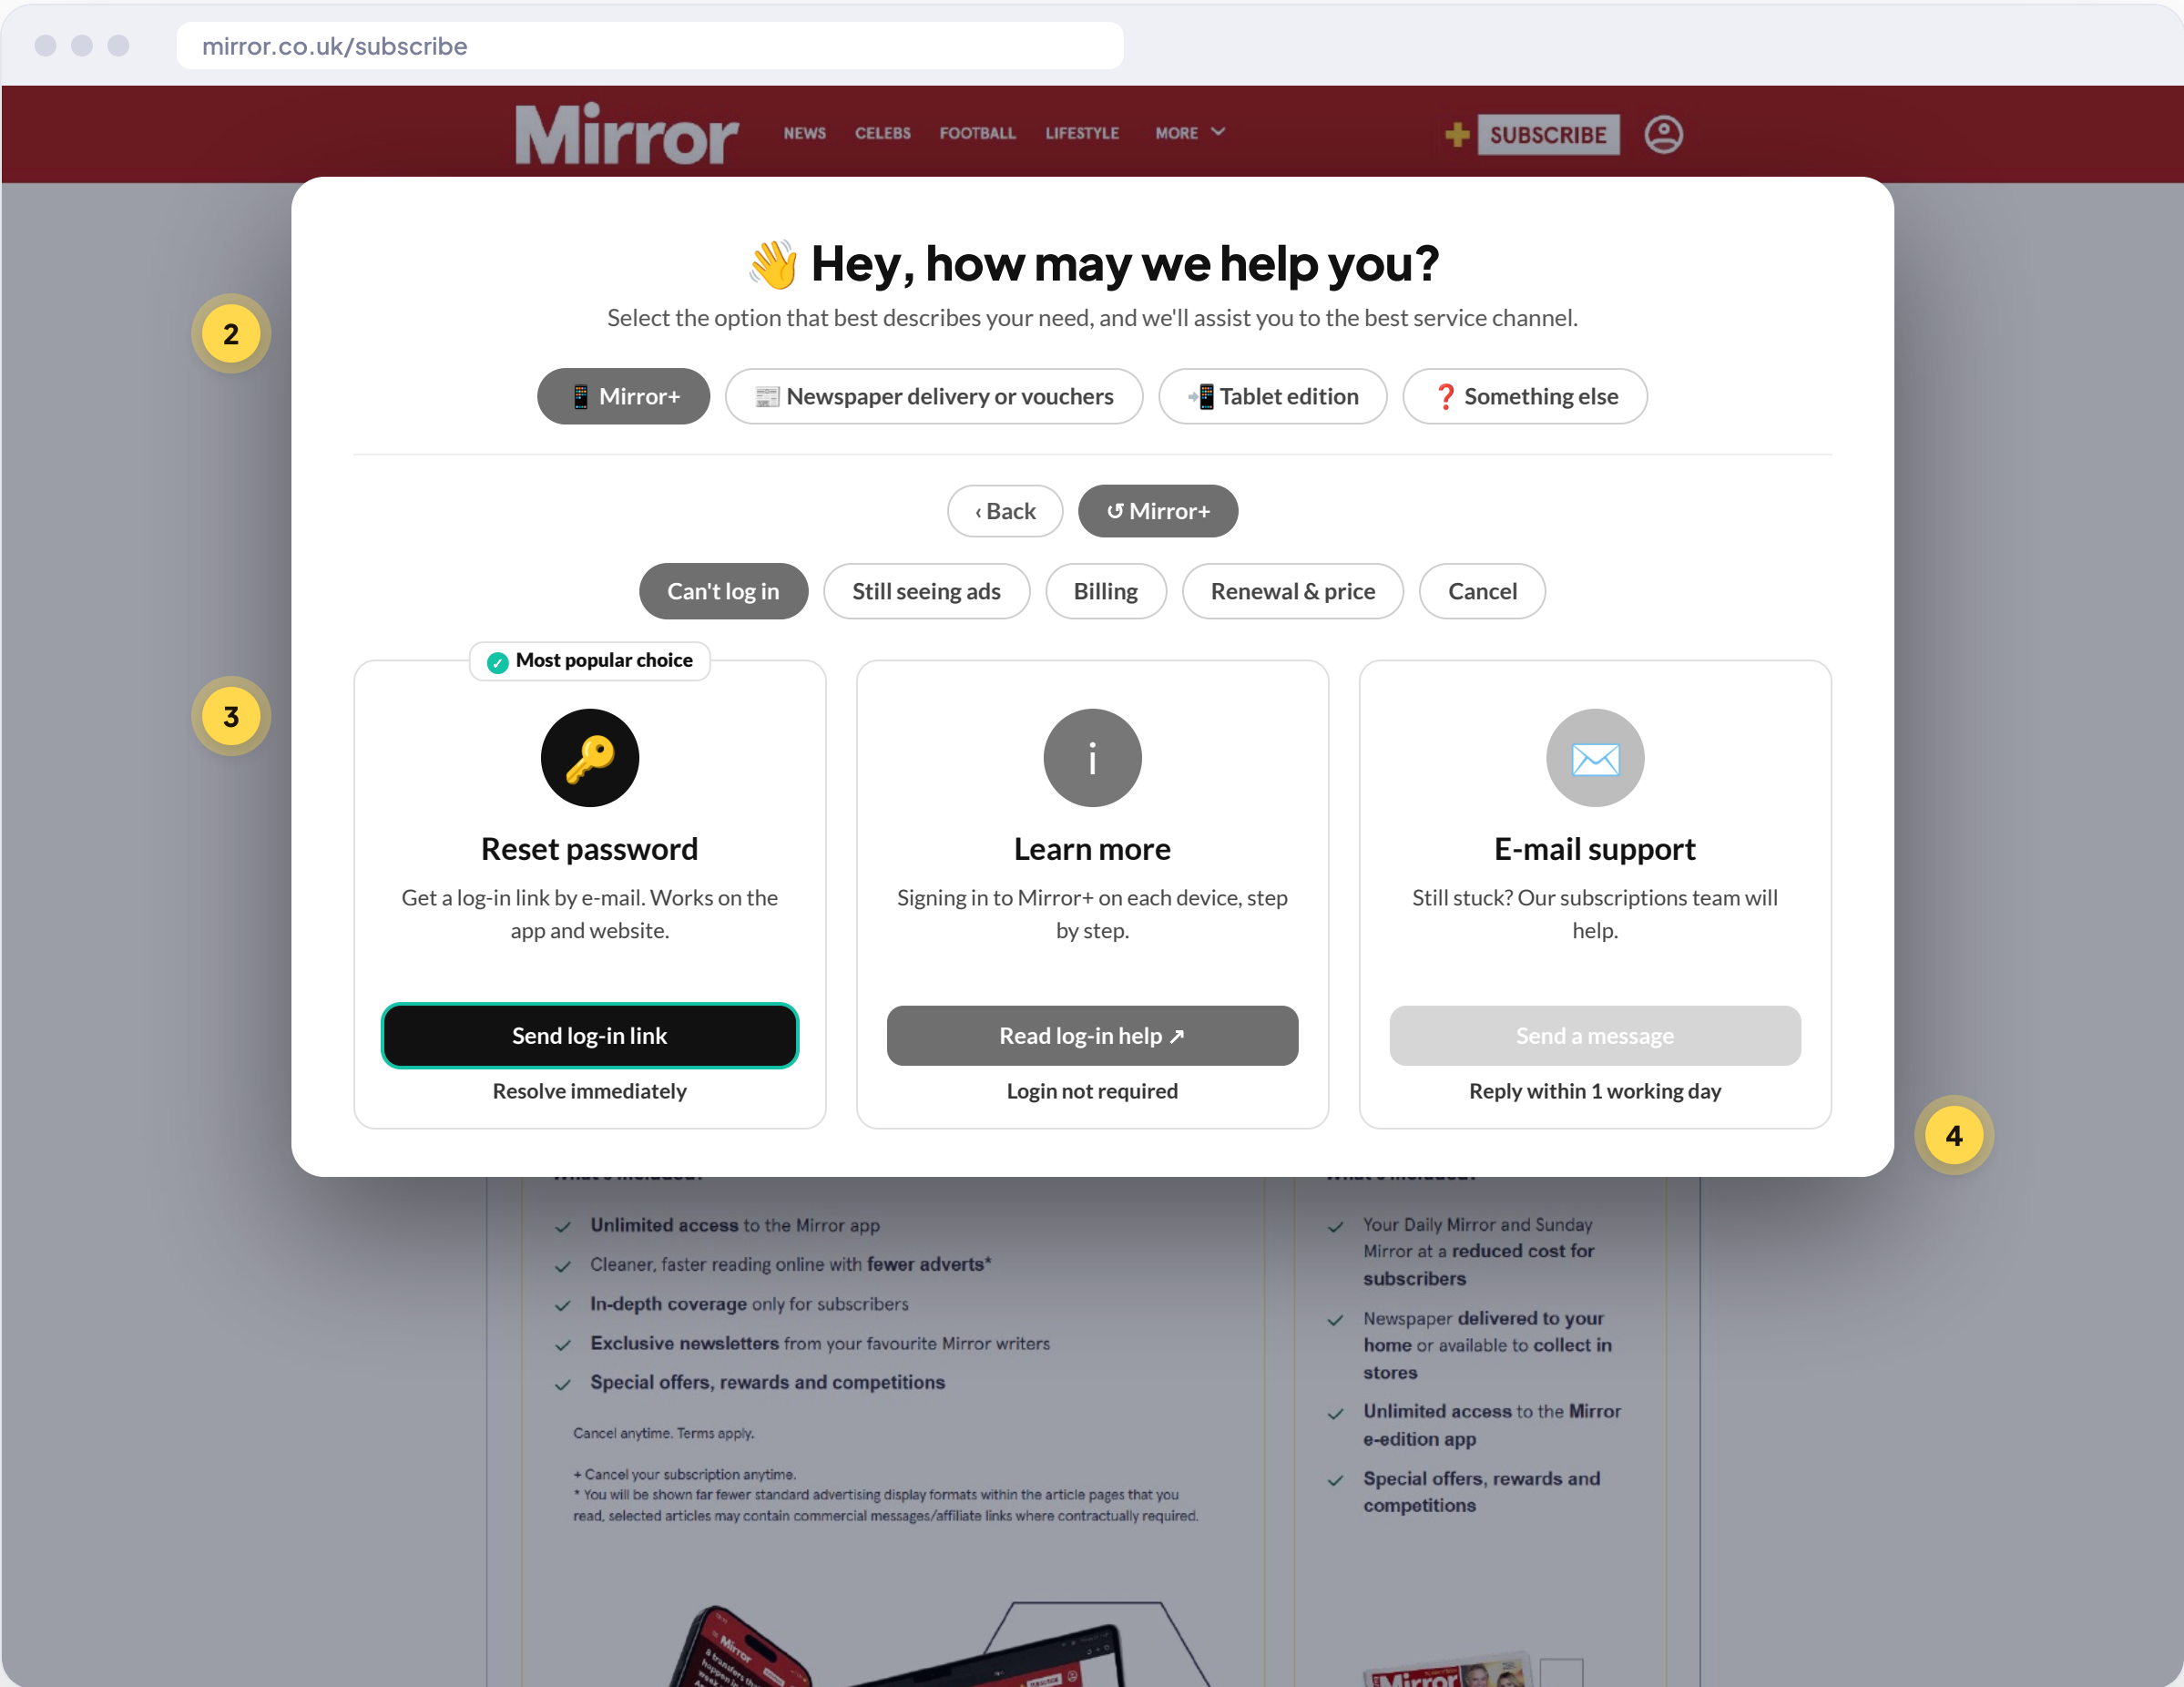

The homepage and top bar link to InYourArea, funeral notices, the shop, competitions, offers and newsletters. There's no "Help". reChannelled adds one small button for subscribers. Nothing else moves.

SCENE 2 · MIRROR+ SUBSCRIBE PAGE

From “Already a Mirror+ member? Login” to real help.

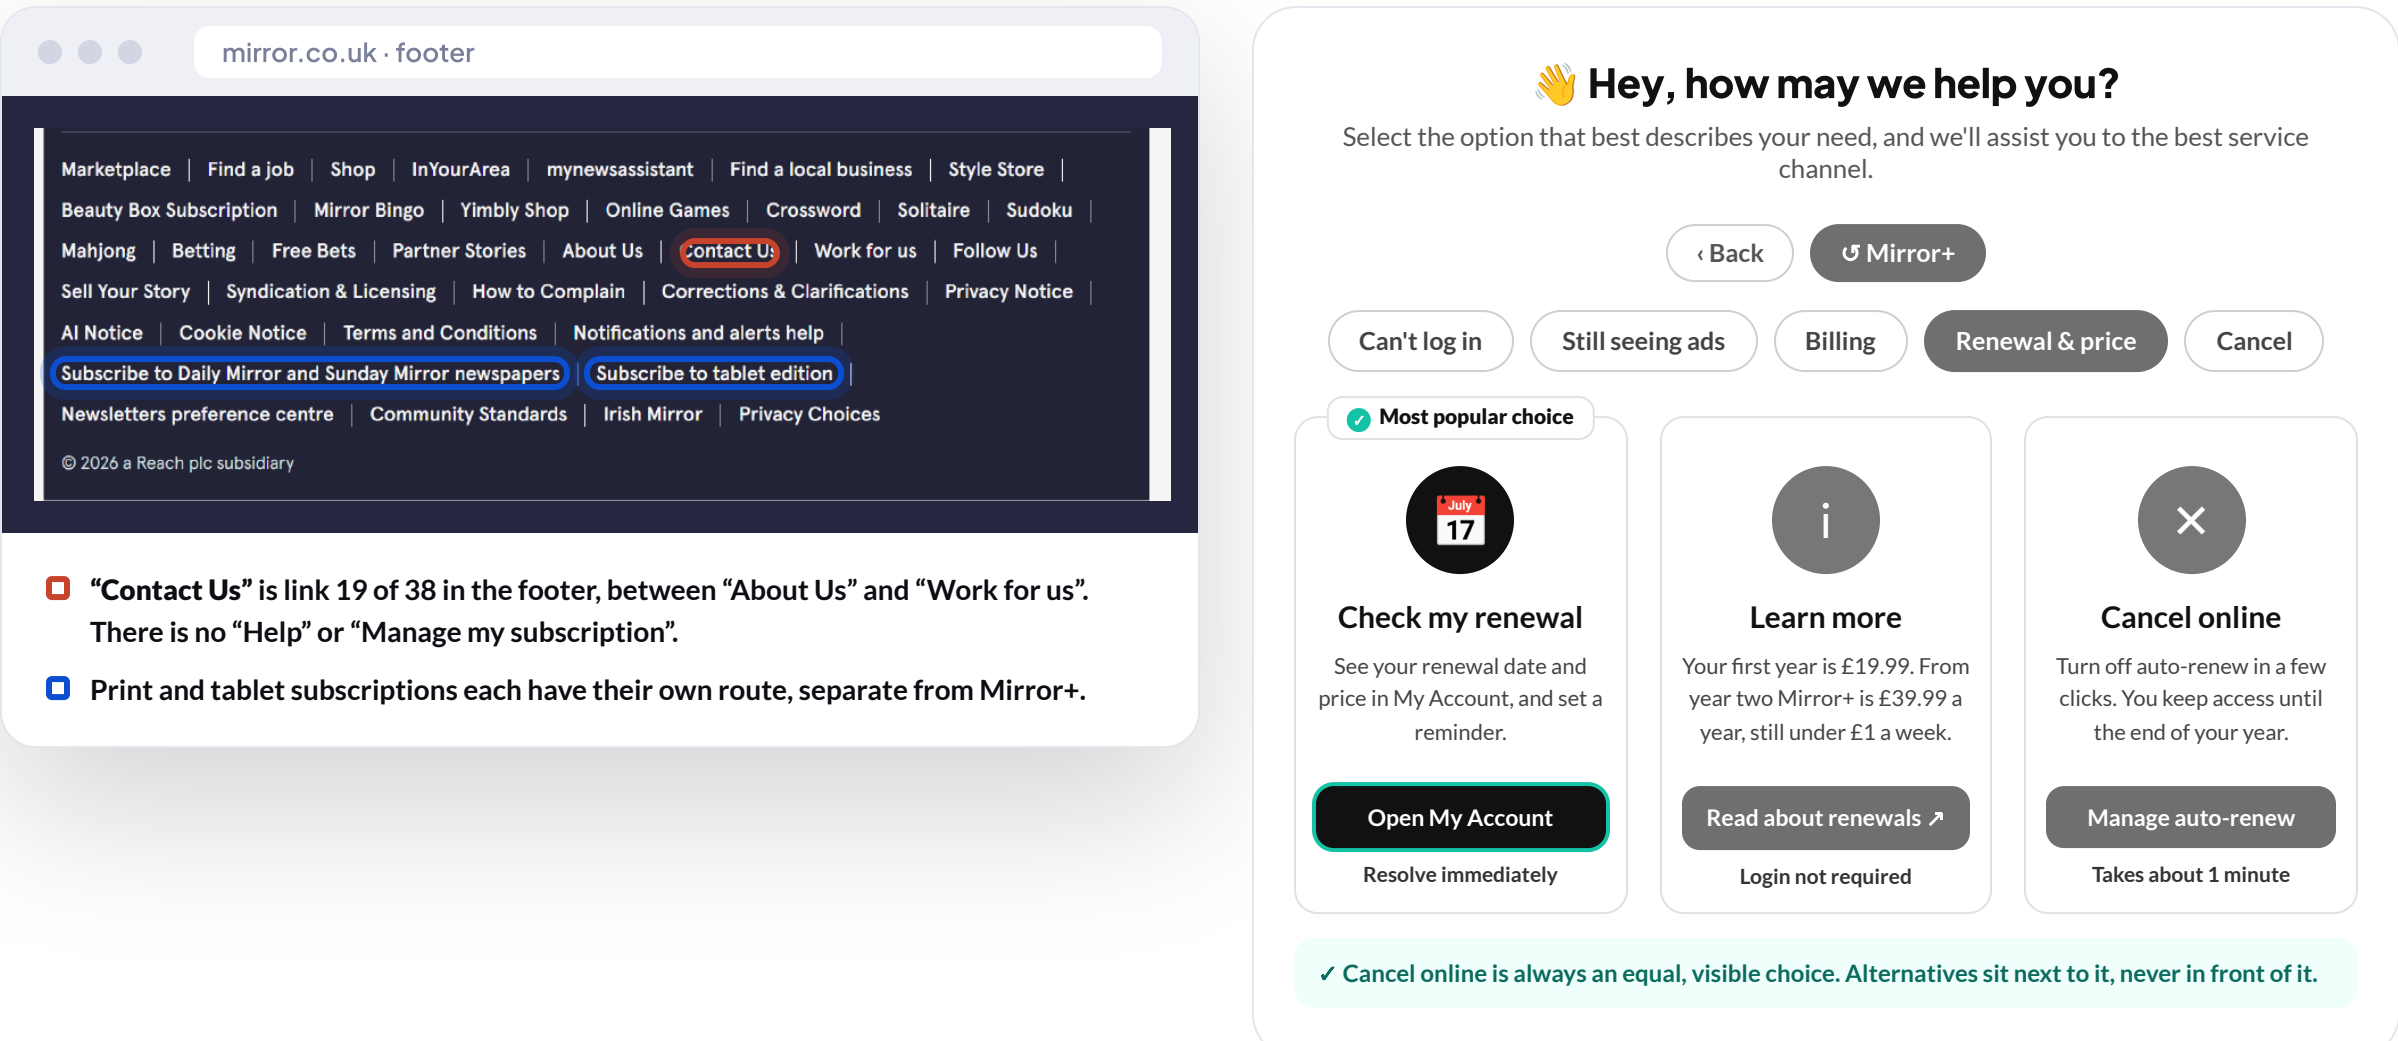

Today the subscribe page offers existing members only a login button, and its FAQ starts “Not a Digital Subscriber yet?”. With reChannelled, members pick their product and need, and get the fastest fix first.

SCENE 3 · FOOTER & RENEWALS

June 2027: the first annual Mirror+ renewals double in price.

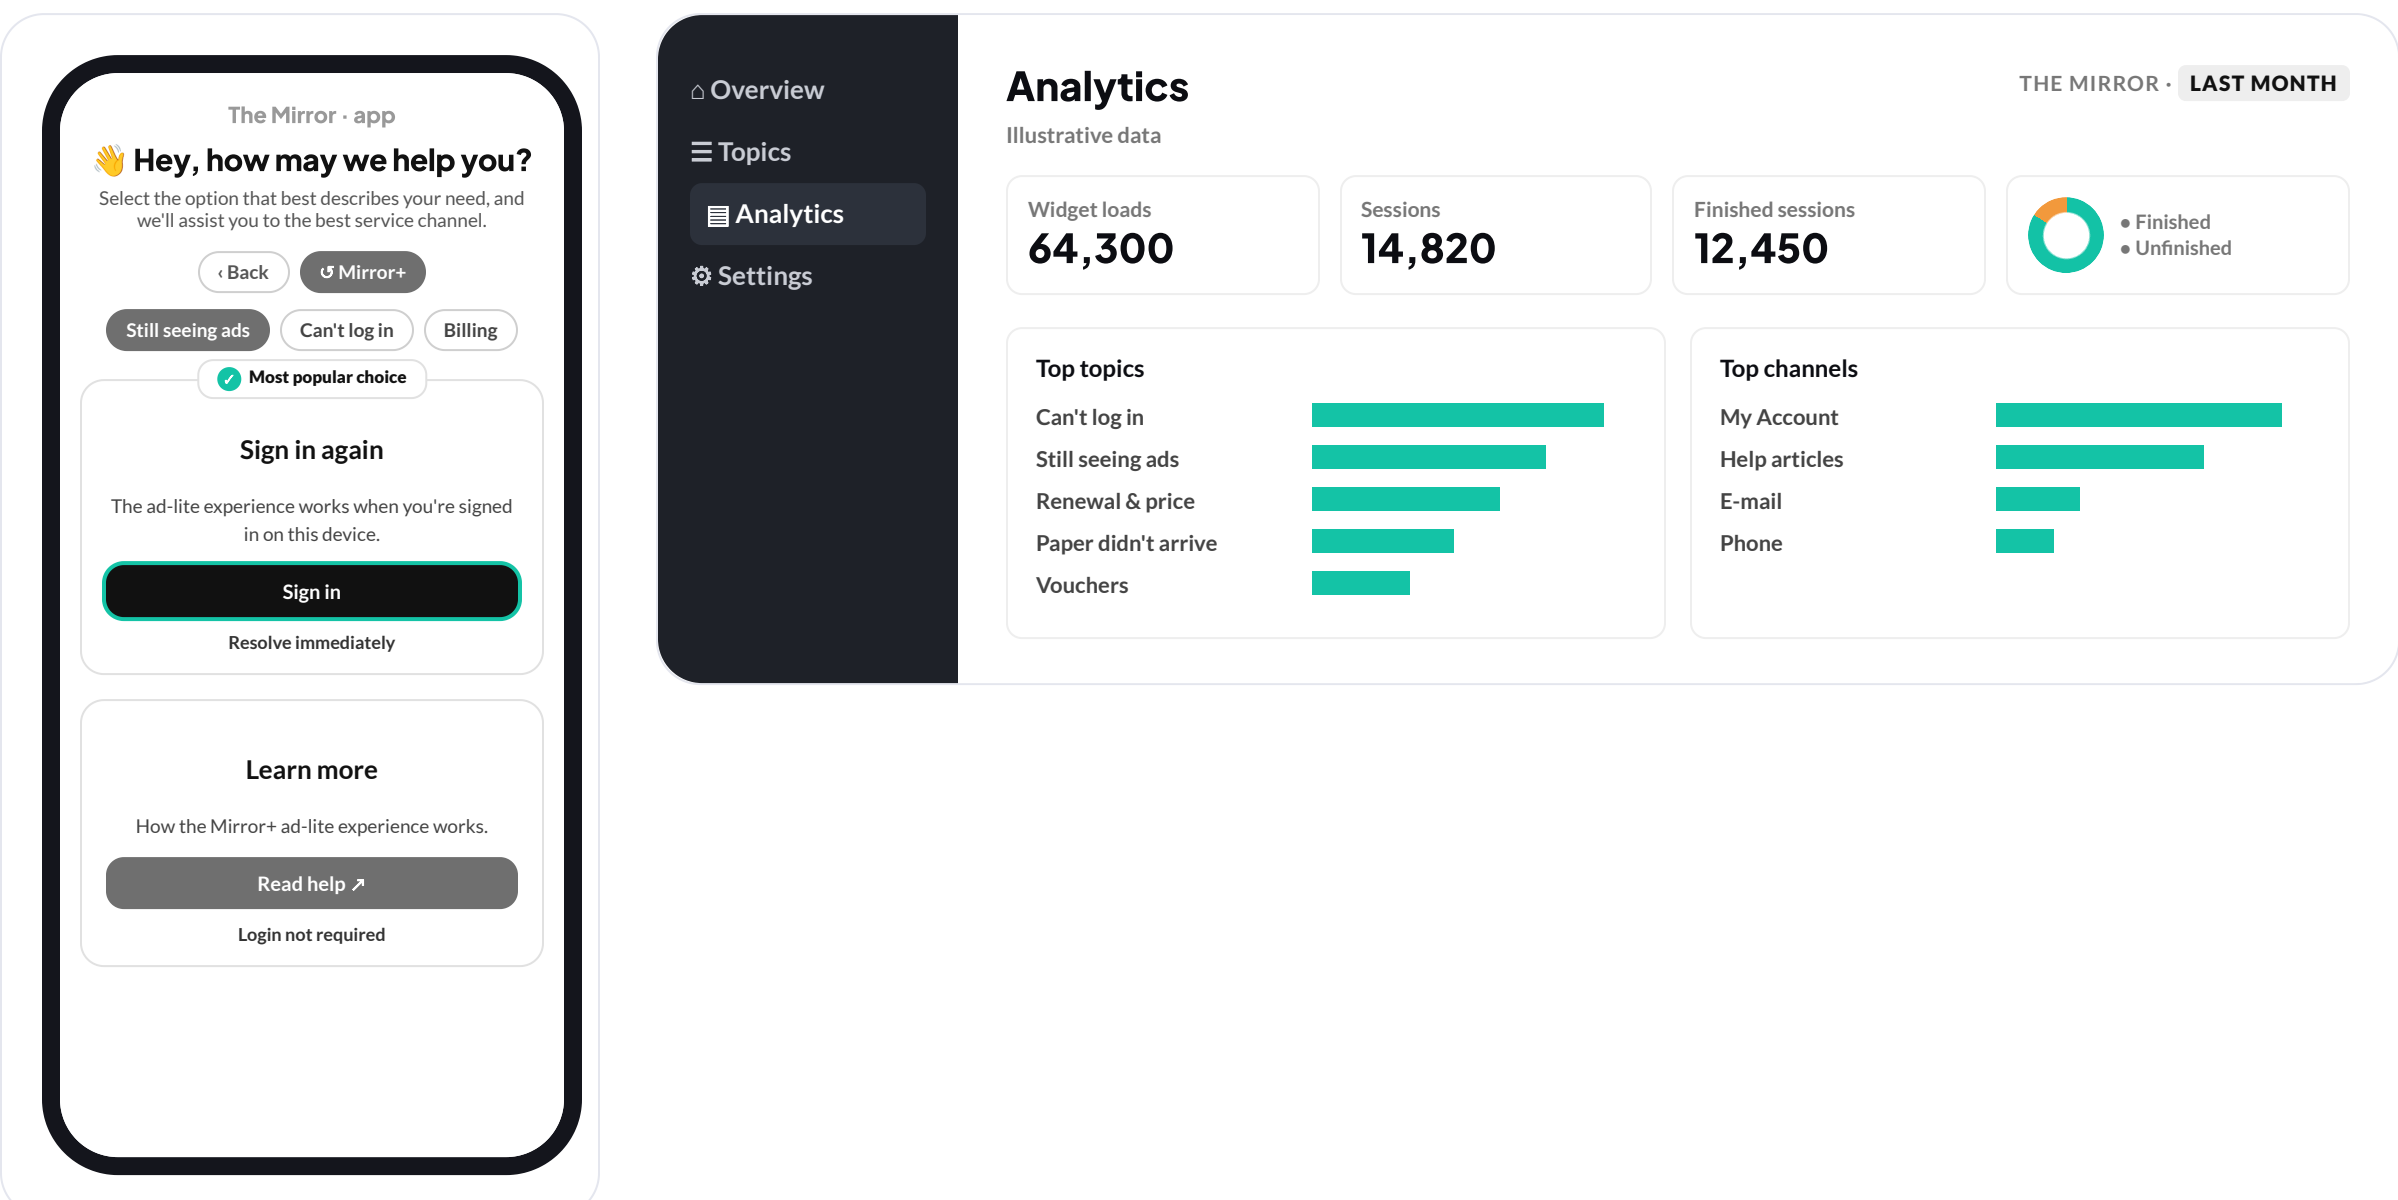

Annual Mirror+ is £19.99 for the first year, then £39.99. The first renewals arrive in June 2027, just after new UK subscription rules start. A "Renewal & price" topic answers the question before it becomes a call, or a cancellation.

SCENE 4 · MOBILE AND ANALYTICS

Same help in the app. Live insight for the Customer team.

On the Mirror app the widget opens as a stacked view. In the admin panel the Customer team sees widget loads, sessions, top topics and channels for the Mirror in real time.

DESIGN

Nothing

Your pages stay exactly as they are. The widget adapts to the site's design and typography.

SET-UP

Plug-and-play

An easy-to-install widget for the website and app, with its own configuration for this brand.

TIME TO LIVE

A few days

Topics and channels managed in the cloud admin panel by the Customer team, not IT.
