Dear George and the Reach Customer team,

Express Premium is one of Reach's most ambitious subscription products: ad-lite reading, exclusive journalism, commenting and Q&As with Express writers, events and a newsletter from the Editor. The launch offers are generous, with £1 for the first month or £1 a week for the first year.

We looked at express.co.uk as a Premium member would. The header says “Go Premium”, “Login” and “Register”, but nothing says Help. The footer has more than 100 links and **no “Contact Us”**; the nearest are “How to Complain” and “Report a Tech Issue”. Existing members get a login button, and the FAQ is written for people who haven't subscribed yet.

Next, launch offers step up to £6.99 a month or £69.99 a year. For annual members that happens in early 2027, the same months the new UK subscription rules take effect.

reChanneld is a channel-strategy platform from Helsinki. Its plug-and-play widget asks readers what they need and shows the best channel: self-service first, with honest opening hours and waiting times. It sits on top of the pages and systems you already have.

A campaigning brand turning loyal readers into members

The Express has one of the UK's largest news audiences and a loyal print readership, and is now asking its readers to pay online.

Timeline

- **2025** Google Discover referrals to Reach fall by almost half in the second half of the year.
- **Early 2026** Express Premium launches, among Reach's first national paywalls alongside the Daily Record and Daily Star.
- **Easter 2026** Ten Reach brands now sell subscriptions.
- **Aug 2026** Reach passes 50,000 digital subscribers.
- **Oct 2026** New weekly podcast "Royals Unscripted", adding to the Daily Expresso video show.
- **Jan 2027** UK subscription rules start. First annual Premium renewals at £69.99.

What this means for subscriber help

- **Engaged members, more questions.** Commenting, Q&As and events add account and community questions on top of log-in and billing.
- **Generous offers, bigger steps.** £1 → £6.99 a month and £52 → £69.99 a year need clear explanation to keep members.
- **Loyal print readers.** Many prefer the phone, so honest phone routes with real hours stay in the mix.
- **No contact route today.** Without "Contact Us", questions end up in complaints or tech-issue forms.

The opportunity: give Express members a clear front door before the first price steps and renewals in early 2027.

- 9 What changes:** no design changes, plug-and-play, live in a few days, GDPR compliant with no cookies.

Why no redesign

express.co.uk is a busy, well-known news site. reChanneld doesn't compete with it: it adds the missing member path on top, so it can go live in days.

Managed by the Customer team

Topics, texts, buttons, hours and the “Most popular choice” are edited in reChanneld's cloud admin panel and change instantly, without IT tickets or releases.

One template, every Reach brand

The Express configuration can be copied to the Mirror, Daily Star, Daily Record and every Reach brand, with each brand's own wording and look.

Early 2027: launch offers end, rules begin

Express Premium launch offers are generous. The steps that follow are fair, but large, and they land just as the new UK subscription rules start.

PLAN	LAUNCH OFFER	THEN	STEP
Premium monthly	£1 first month	£6.99 a month	×7 after month one
Premium annual	£52 first year (£1 a week)	£69.99 a year	+35% at first renewal
Print (vouchers / delivery)	£29.99 a month	As advertised	Monthly

UK subscription rules, from January 2027

- **Easy exit.** Consumers can end a contract with a clear statement, without unnecessary steps.
- **Cooling-off.** A 14-day cooling-off period at the start, and again after renewal.
- **Reminders.** Notices before renewals and before a free or discounted period ends.

Summary of the DMCC Act 2024 subscription regime from public guidance, not legal advice.

How the widget helps

- **Reminder e-mails link to a “Renewal & price” topic**, so questions land in self-service, not in the inbox.
- **Honest options side by side:** switch plan, check what's included, and cancel online, all as equal choices.
- **Evidence:** analytics show how many readers chose each option, useful for the Customer team and for compliance.

Retention by service, not by friction: members who understand what £6.99 or £69.99 buys stay, and those who want to leave can do so in a minute.

A simple model to fill in together

We don't know The Express's subscriber or contact volumes, so this is a worked example per 10,000 subscribers, with clearly stated assumptions. In the first call we'd replace them with real figures.

PER 10,000 SUBSCRIBERS	EXAMPLE
Contacts per subscriber per year	0.4
Subscriber contacts per year	4,000
Share moved to self-service by nudging	30%
Contacts avoided per year	1,200
Cost per assisted contact (reChanneld's ROI basis: €5)	≈ £4.30
Service saving per year	≈ £5,200
Subscribers kept at renewal (+2 percentage points)	200
Value of a kept subscriber per year (monthly plan)	£83.88
Retained revenue per year	≈ £16,800

Where the value comes from

- **Retention first.** At The Express's prices, keeping subscribers at renewal is worth more than service savings.
- **Fewer assisted contacts.** Log-in, billing and delivery questions move to self-service.
- **Faster help for those who call.** Shorter queues for complex cases.
- **Insight.** Real-time data on what readers need, for the Customer and product teams.

reChanneld's own benchmark

On reChanneld's published plans, ROI is reached by nudging around 5% of traffic, assuming €5 per contact. Clients typically see 79% of channel selections go to self-service, automation and leads.

Scale: the same configuration can be copied to every Reach subscription brand (25 by October), so the value multiplies across a base heading for 75,000 digital subscribers.

Prove it on The Express, with your own data

Suggested scope: Express Premium members on [express.co.uk](https://www.express.co.uk) and the Express app, live before the first annual renewals in early 2027.

WEEKS 1–2

Map

Review three months of The Express contact reasons, agree topics, channels and wording, and set the baseline. The widget itself can be live within days.

WEEKS 3–8

Guide

Widget live on [express.co.uk](https://www.express.co.uk) (Premium page, account and footer) and in the Express app. Wording and recommended channels adjusted weekly from the analytics.

WEEK 9

Decide

Review results together, then copy the configuration to the next Reach brands.

What we'll measure

KPI	HOW
Member contacts per 1,000 Premium members	Your data, before vs during
Top topics and channels	reChanneld analytics
Finished sessions	reChanneld analytics
Complaints and tech-issue forms used for help	Your data, before vs during

Premium churn after month one	Your data

Who does what

reChanneld

- Configuration, topics and copy
- Analytics access and weekly check-ins
- Final report and rollout plan

Reach

- One Customer-team contact, about 2 hours a week
- Contact-reason data and current help links
- Adding the widget to the agreed pages

No redesign, no new chatbot and no change to subscription platforms. If it doesn't show results in 8 weeks, you stop.
