Every Mirror+ reader, to the right place, first time.

How one reChanneld front door on mirror.co.uk can support Mirror+ members and print subscribers, get ready for the first annual renewals in June 2027, and serve as the template for every Reach brand.

Dear George and the Reach Customer team,

Four months after launch, Mirror+ is one of the most visible parts of Reach's subscription push: the fourth national brand behind a paywall, at £3.99 a month or £19.99 for the first year. Every new member is a customer who will, sooner or later, need help.

We looked at mirror.co.uk as a Mirror+ member would. There is no “Help” in the navigation. “Contact Us” is link 19 of 38 in the footer. The subscribe page offers existing members only a login button, and its FAQ is written for people who haven't subscribed yet. Print and tablet subscriptions each have their own separate route.

Meanwhile the first annual Mirror+ renewals arrive in **June 2027**, when the price doubles to £39.99, just after the new UK subscription rules take effect in January 2027.

reChanneld is a channel-strategy platform from Helsinki. Its plug-and-play widget asks readers what they need and shows the best channel for it: self-service first, with honest opening hours and waiting times. It sits on top of the pages and systems you already have.

A national brand learning to be a subscription business

One of the UK's biggest news brands is moving from reach to recurring revenue, at a moment when search traffic is falling and every subscriber counts.

Timeline

- **2025** Google Discover referrals to Reach fall by almost half in the second half of the year.
- **Early 2026** Chloe Hubbard, from The Independent, becomes Mirror editor-in-chief.
- **Jun 2026** Mirror+ launches with an ad-lite app, exclusive columns, newsletters and offers.
- **Aug 2026** Reach passes 50,000 digital subscribers. Mirror North opens in Manchester.
- **Jan 2027** UK subscription rules (DMCC Act) start: easy exit, cooling-off, reminders.
- **Jun 2027** First annual Mirror+ renewals, at £39.99 instead of £19.99.

What this means for subscriber help

- **A new kind of customer.** Mirror+ members ask about log-in, ads, billing and renewal, questions the print business never had.
- **Three products, three routes.** Mirror+, print (vouchers or home delivery) and the tablet edition are sold and supported separately.
- **A renewal price step.** Doubling from £19.99 to £39.99 is fair value, but needs explaining before members decide to leave.
- **Print readers still matter.** Many still prefer the phone, so honest phone routes stay in the mix.

The opportunity: give Mirror+ members a clear front door before the first renewals in June 2027.

Why no redesign

mirror.co.uk is a high-traffic news site built for advertising and audience. reChanneld doesn't compete with it: it adds the missing member path on top, so it can go live in days.

June 2027: the first Mirror+ renewals

Annual Mirror+ members pay £19.99 for their first year. From June 2027 their renewal is £39.99. Explaining that step well is the biggest retention lever the Mirror has.

PLAN	YEAR ONE	THEN	FIRST RENEWALS
Mirror+ monthly	£3.99 a month	£3.99 a month	Every month
Mirror+ annual	£19.99	£39.99 a year	From June 2027
Print (vouchers / delivery)	£29.99 a month	As advertised	Every month

UK subscription rules, from January 2027

- **Easy exit.** Consumers can end a contract with a clear statement, without unnecessary steps.
- **Cooling-off.** A 14-day cooling-off period at the start, and again after renewal.
- **Reminders.** Notices before renewals and before a free or discounted period ends.

Summary of the DMCC Act 2024 subscription regime from public guidance, not legal advice.

How the widget helps

- **Reminder e-mails link to a “Renewal & price” topic,** so questions land in self-service, not in the inbox.
- **Honest options side by side:** switch to monthly, check what's included, and cancel online, all as equal choices.
- **Evidence:** analytics show how many readers chose each option, useful for the Customer team and for compliance.

Retention by service, not by friction: members who understand what £39.99 buys renew, and those who want to leave can do so in a minute.

A simple model to fill in together

We don't know The Mirror's subscriber or contact volumes, so this is a worked example per 10,000 subscribers, with clearly stated assumptions. In the first call we'd replace them with real figures.

PER 10,000 SUBSCRIBERS	EXAMPLE
Contacts per subscriber per year	0.4
Subscriber contacts per year	4,000
Share moved to self-service by nudging	30%
Contacts avoided per year	1,200
Cost per assisted contact (reChanneld's ROI basis: €5)	≈ £4.30
Service saving per year	≈ £5,200
Subscribers kept at renewal (+2 percentage points)	200
Value of a kept subscriber per year (annual plan)	£39.99
Retained revenue per year	≈ £8,000

Where the value comes from

- **Retention first.** At The Mirror's prices, keeping subscribers at renewal is worth more than service savings.
- **Fewer assisted contacts.** Log-in, billing and delivery questions move to self-service.
- **Faster help for those who call.** Shorter queues for complex cases.
- **Insight.** Real-time data on what readers need, for the Customer and product teams.

reChanneld's own benchmark

On reChanneld's published plans, ROI is reached by nudging around 5% of traffic, assuming €5 per contact. Clients typically see 79% of channel selections go to self-service, automation and leads.

Scale: the same configuration can be copied to every Reach subscription brand (25 by October), so the value multiplies across a base heading for 75,000 digital subscribers.

Prove it on The Mirror, with your own data

Suggested scope: Mirror+ members on mirror.co.uk and the Mirror app, starting well ahead of the June 2027 renewals.

WEEKS 1–2

Map

Review three months of The Mirror contact reasons, agree topics, channels and wording, and set the baseline. The widget itself can be live within days.

WEEKS 3–8

Guide

Widget live on mirror.co.uk (subscribe, account and footer “Contact Us”) and in the Mirror app. Wording and recommended channels adjusted weekly from the analytics.

WEEK 9

Decide

Review results together, then copy the configuration to the next Reach brands.

Who does what

reChanneld

- Configuration, topics and copy
- Analytics access and weekly check-ins
- Final report and rollout plan

Reach

- One Customer-team contact, about 2 hours a week
- Contact-reason data and current help links
- Adding the widget to the agreed pages

No redesign, no new chatbot and no change to subscription platforms. If it doesn't show results in 8 weeks, you stop.
