PREPARED FOR MATTI & TOUKO · RECHANNELD

reChanneld has the proof. Now it needs a voice.

A 90-day marketing kickstart: positioning, website copy, case stories, LinkedIn, an explainer video and account-based outreach. It's built on the results you already have, without hiring a marketing team.

4.3M
annual sessions through reChanneld

7
case studies with named customers and numbers

20+
reference logos: Posti, S-Pankki, Nets, DNA…

0
marketing channels using any of it today

SUMMARY FOR MATTI

You don't have a proof problem. You have a distribution problem.

reChanneld already has results most SaaS companies would envy: −45% phone calls at Lippu.fi, CSAT up from 50% to 84% at CDON, and +107% AI-agent usage when the widget is live. Almost nobody outside your sales calls sees them.

Where things stand today

- No marketing team, plan or regular activity
- The website rebrand is in progress, with no timeline
- No social media activity and no paid campaigns
- One sales deck and a few customer stories
- Sales is founder- and Touko-led, mostly through personal networks

Based on my conversation with Touko, October 2026.

What I propose

- **Month 1:** positioning, website copy for the rebrand, 3 case one-pagers
- **Month 2:** LinkedIn engine (company page + founders) and a 60-second explainer video
- **Month 3:** account-based outreach packs for 10 target accounts (Finland + UK)
- One person, part-time, with a fixed scope and fixed price

The goal for 90 days: a website, a story and a pipeline that don't depend on who you already know.

Concrete target: a relaunched website message, 3 case one-pagers, 24 LinkedIn posts, 1 explainer video, 10 outbound packs sent, and a steady flow of qualified demo meetings.

Why me

I've worked in conversational marketing and sales tech at Leadoo and Videobot, so I know how this market buys. I also make explainer videos. Touko has already seen my work: in two weeks I built account-based packs for DC Thomson, Reach, the Mirror, the Express and the Manchester Evening News, each built on the prospect's real website (see page 10).

The decision needed: agree the scope and option (page 11), and the start date.

WHAT YOU ALREADY HAVE

Enough proof to fill a year of content

Everything on this page comes from your current sales deck. None of it is used in public marketing yet.

4,285,000
annual sessions

€1.64
net value generated per session

79%
of channel selections go to self-service, automation and leads

87%
of end users find reChanneld easy and clear

CUSTOMER	HEADLINE RESULT	ALSO	SPEED
Lippu.fi (CTS Eventim)	**−45%** customer service phone calls	80% of contacts go to the preferred channel; +22% leads	8 business days
S-Bank (3.3M customers)	**+83%** of contacts go to self-service	79% of choices hit the bank's preferred option	
CDON (>2M customers)	**−50%** contacts needing a human	CSAT up from 50% to 84%; +93% go to self-service	Immediately
Laurea (11,000 students)	**+92%** of contacts go to self-service	Direct email down from 80% to 49% of tickets	A few weeks
Nets / Nexi	**78%** nudged to automation and self-service	+12% of contacts became leads	2 weeks
Keusote (public health)	**NPS +70** website satisfaction, up from negative	+50% to self-service; −7% phone volume	6 months
AI agent case (unnamed)	**+107%** AI-agent volume with reChanneld	−62% when the widget was removed for 2 months	

Reference logos from the sales deck, including Posti, Sanoma, HS, Varma, S-Pankki, Neste, Nets, DNA, Toyota Financial Services, Poliisi and Laurea.

THE GAP

Every marketing channel is empty today

This isn't a criticism. It's normal for a product-led team. But each empty channel is a place where a buyer looks for you and finds nothing, or finds a competitor.

AREA	TODAY	WHY IT MATTERS	90-DAY FIX
Positioning	🔴 Not written down	Everyone describes reChanneld differently: "nudges", "widget", "channel strategy"	One sentence, three messages and proof for each (page 5)
Website	🟡 Rebrand in progress, status unknown	Buyers check the site before they reply to Touko	Copy and structure ready for the rebrand, plus a case page
Case stories	🟡 Only inside the deck	Your strongest asset, and nobody can link to it	3 one-pagers + web versions (page 6)
LinkedIn	🔴 No activity	Where customer service and digital leaders spend time	2 posts a week: company page + founders (page 7)
Video	🔴 None	"Nudging" is easier to show than to explain	A 60-second explainer (page 8)
Outbound	🟡 Founder-led, through personal networks	Doesn't scale and doesn't reach the UK	Account packs for 10 target accounts (page 9)
Paid ads	🔴 None	Only worth it once the message and site work	Not in the first 90 days. Test in Q2.
Measurement	🔴 None	Without it, marketing turns into opinions	A simple monthly dashboard: reach, visits, demos

Order matters: message → website → content → outreach → ads.

Spending on ads before the message and website are ready wastes money. The plan follows this order.

POSITIONING · DRAFT

One sentence everyone can repeat

reChanneld guides every customer to the right channel before they contact you, so self-service and AI agents get used, phone queues shrink and customers get answers faster.

Draft for discussion with Matti. The wording should come from the founders, and the structure is what matters.

SAVE COSTS

Fewer contacts for humans

Lippu.fi −45% calls · CDON −50% contacts to humans · Keusote −7% phone volume

IMPROVE CX

Faster, clearer answers

CDON CSAT 50% → 84% · Keusote NPS negative → +70 · 87% find it easy

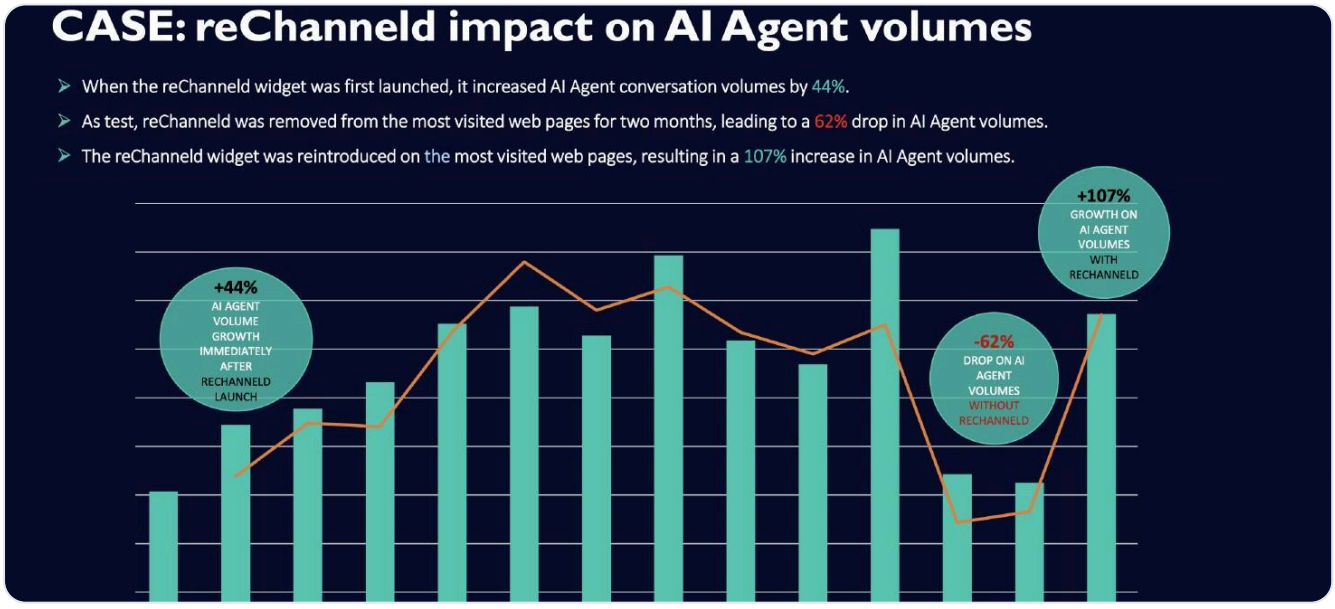

SEE BEHAVIOUR

Know why people contact you

Real-time insight "better than traditional web statistics" (Nets/Nexi)

The 2026 angle: reChanneld makes AI agents pay off

Many companies bought an AI agent in 2025–26, and their customers still call. Your own data shows why: AI-agent conversations rose 44% when the widget launched, fell 62% when it was removed, and rose 107% when it came back. This is the most timely message you have, and no competitor can claim it.

From the sales deck: "CASE: reChanneld impact on AI Agent volumes".

Suggested campaign line: *"Your AI agent is only as good as the traffic you send it."*

SAMPLE 1 · CASE ONE-PAGER DRAFT · NEEDS LIPPU.FI APPROVAL

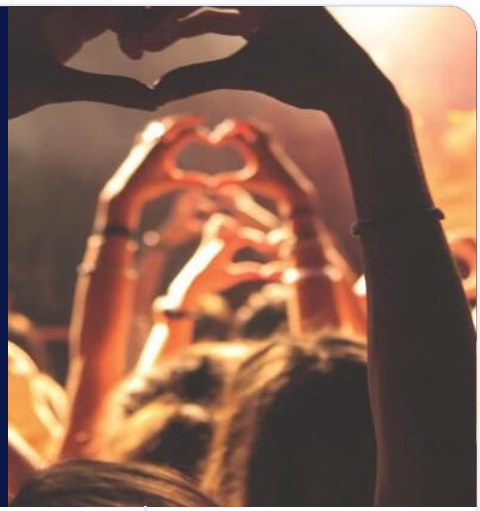

What a case story looks like outside the deck

This uses only facts and the quote from your deck. The same format becomes a web page, a PDF for sales, a LinkedIn post and a 30-second video.

CASE · LIPPU.FI (PART OF CTS EVENTIM)

Lippu.fi cut customer service calls by 45% in eight business days

Finland's market-leading ticketing service used reChanneld to guide customers to the right channel before they picked up the phone.

−45%	80%	+22%	8 days
customer service phone calls	of contacts went to the preferred (self-service) channel	lead generation	to implement

The challenge

Ticket buyers with questions about events, orders and changes went straight to the phone, even when the answer was available online.

What reChanneld did

A plug-and-play widget on the customer service pages asks "How can we help?" and guides each topic to the best channel: self-service, automation or a person. Lippu.fi defined its own channel strategy and had it live in eight business days.

> *"Within just a few days we were able to nail our service channel strategy with reChanneld. Nudges work excellently, and we offer a far more intuitive experience to our customers than before!"*
>
> Teresa Alander, Head of Operations, Lippu.fi

The challenge text is my wording based on the deck. Confirm it with Lippu.fi. The photo is from the deck.

SAMPLE 2 · LINKEDIN DRAFTS

Three posts, ready to publish

Written for the founders' and Touko's personal profiles, which reach further than a company page. Each post is built on one result from the deck.

M

Matti · Co-founder
reChanneld by Front AI

You bought an AI agent. Your customers still call.

We tested it with one customer: the AI agent with and without reChanneld guiding people to it.

Widget on: +44% AI-agent conversations.
Widget off for two months: −62%.
Widget back: +107%.

An AI agent is only as good as the traffic you send it.

T

Touko Laakkonen
Head of GTM Finland

CSAT went from 50% to 84%. Nobody was hired.

CDON, the biggest marketplace in the Nordics, cut contacts that needed a human by 50% right after launch.

Customers didn't get less service. They got the right service faster, and satisfaction followed.

Faster answers are the best CX project there is.

re

reChanneld
Company page

From a negative NPS to +70.

Keusote provides health and social services to more than 200,000 people in 11 municipalities. Their website wasn't working for citizens.

With reChanneld: +50% of contacts to digital self-service, −7% phone volume in six months, and website satisfaction from negative to NPS +70.

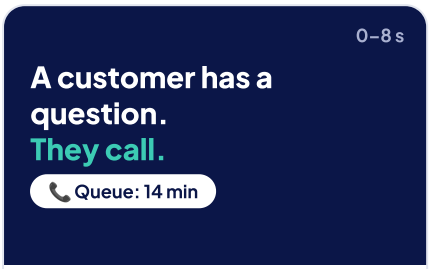

First four weeks: content calendar

WEEK	MONDAY · FOUNDER	THURSDAY · COMPANY / TOUKO
1	"You bought an AI agent. Your customers still call." (AI agent case)	What is a channel strategy? (a 30-second explainer clip)
2	CDON: CSAT 50% → 84%	Lippu.fi case one-pager (link to the web page)
3	Why we built reChanneld (founder story)	Keusote: NPS negative → +70
4	3 mistakes in customer service channel design	The explainer video launch

SAMPLE 3 · EXPLAINER VIDEO · 60 SECONDS

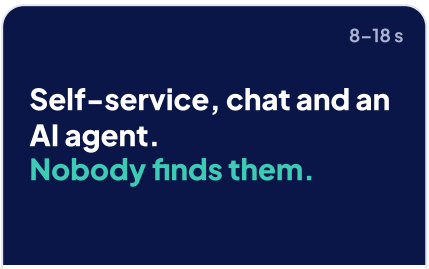

Show nudging in one minute

"Nudging" sounds abstract until you see it. This storyboard shows the problem, the moment of choice and the result. I produce it end to end: script, visuals, voice and captions, with versions for the website, LinkedIn and sales emails.

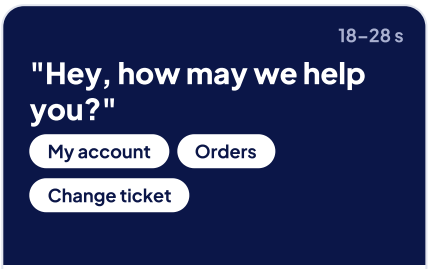

VO

Your customer has a simple question. The answer is on your website, but they call anyway.

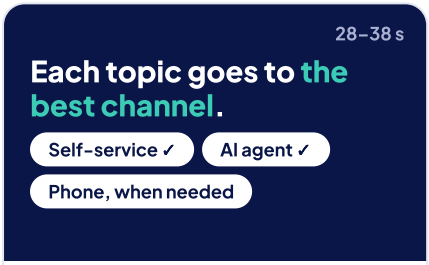

VO

You've invested in self-service, chat and an AI agent. But customers don't know where to go, so they pick the phone.

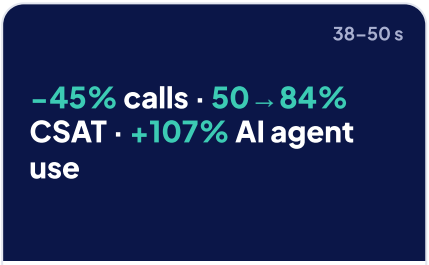

VO

reChanneld sits on your site and asks one simple question at the moment of choice.

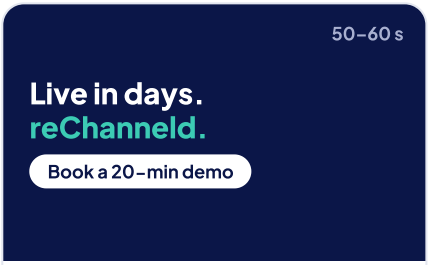

VO

Then it guides each customer to the best channel for their topic: self-service, automation or a person when it really matters.

VO

Lippu.fi cut calls by 45%. CDON lifted CSAT from 50 to 84%. And AI agents finally get used.

VO

Plug-and-play, and live in days, not months. reChanneld: better choices, happier customers.

Cut-downs from the same production

- 3 × 15-second LinkedIn clips (one per case)
- A silent, captioned version for the website hero
- A personalised intro version for top outbound accounts ("Hi DC Thomson…")

THE PLAN

90 days, three steps, one owner

Each month ends with something you can see and use. A fortnightly 30-minute check-in with Matti and Touko keeps decisions moving.

MONTH 1

Foundations

- Positioning workshop (2 h with the founders)
- Messaging guide: one sentence, 3 messages, proof
- Website copy and structure for the rebrand
- 3 case one-pagers: Lippu.fi, CDON, AI agent
- LinkedIn profiles refreshed (company, founders, Touko)

You get: a clear story and ready copy for the site and sales

MONTH 2

Voice

- LinkedIn: 2 posts a week, written for the founders' voices
- 60-second explainer video and 3 cut-downs
- Case pages live on the website
- The sales deck refreshed with the new message
- Simple monthly dashboard

You get: a visible, regular presence and a video that sells

MONTH 3

Pipeline

- Account-based outreach packs for 10 target accounts in Finland and the UK
- Messages for Touko and the founders to send
- Follow-up content for warm accounts
- Review: what worked, and Q1 plan and budget

You get: 10 accounts approached with tailored packs, and a plan for next quarter

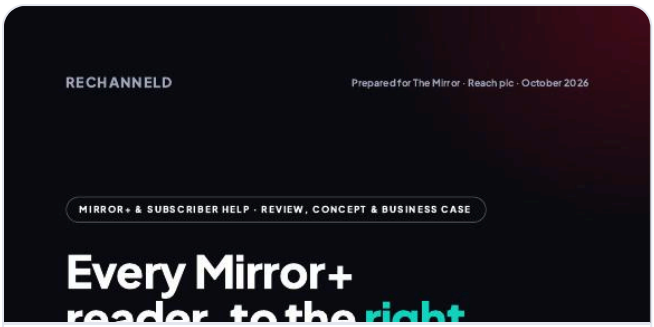

How we'll measure it

METRIC	BASELINE (TODAY)	TARGET BY DAY 90
Public case stories	0	3
LinkedIn posts (company + founders)	None	24
Explainer video	None	1 + 3 cut-downs
Target accounts approached with a tailored pack	A few, ad hoc	10
Qualified demo meetings from marketing and outreach	Not tracked	Tracked monthly. Target set together in week 2

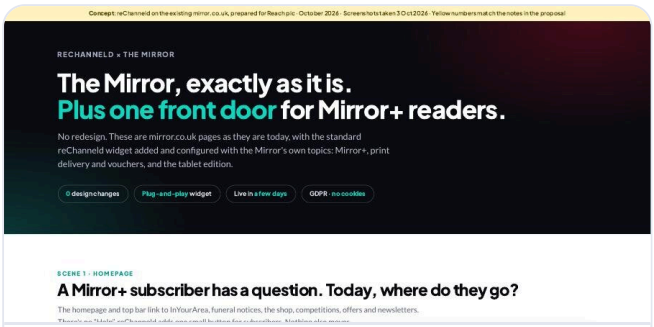

ALREADY DONE FOR RECHANNELD

You've seen how I work

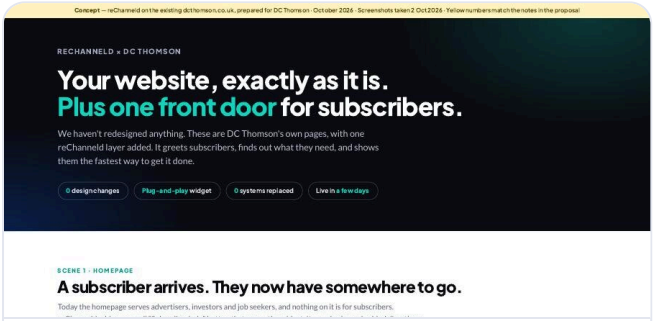

These were built for Touko in October 2026, before any agreement, to help open UK accounts. Each one is built on the prospect's real website, with the reChanneld widget shown on top and a business case.

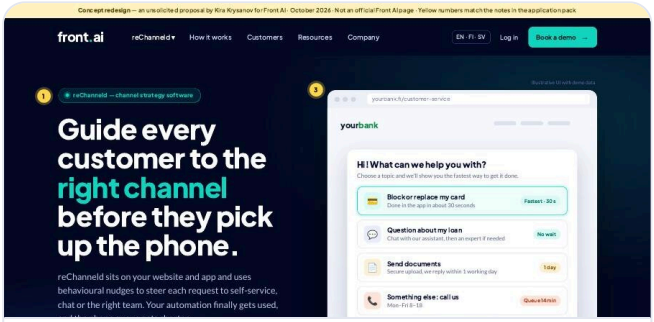

The Mirror: account pack
Review, concept, topic map, renewals timing and business case. Also made for the Express and the Manchester Evening News.

The Mirror: concept page
mirror.co.uk exactly as it is, with one reChanneld "front door" for Mirror+ readers.

DC Thomson: help concept
No redesign: the reChanneld layer on their existing pages, with numbered findings.

Homepage concept
A proposal for the front.ai / reChanneld homepage: "Guide every customer to the right channel before they pick up the phone".

Month 3 of the plan is exactly this, done 10 times, for the accounts you choose.

The difference now: real product screenshots from you, so every concept shows the actual reChanneld widget.

WORKING TOGETHER

Three ways to start

All options are fixed-price and monthly, with no long contract. After 90 days we decide together whether to continue, change the scope or make it a permanent role.

Light

€2,400 / month

About 1 day a week

- Positioning and messaging
- Website copy for the rebrand
- LinkedIn: 1 post a week
- 2 case one-pagers

Recommended

Kickstart

€4,500 / month

About 2 days a week · 3 months

- Everything in the 90-day plan (page 9)
- LinkedIn: 2 posts a week
- 3 case one-pagers + web pages
- 60-second explainer video and cut-downs
- 10 account-based outreach packs

Outbound only

€2,900 / month

5 account packs a month

- Research and a concept on each prospect's real site
- Business case and findings
- Message for Touko to send
- Ideal if marketing waits for the rebrand

Not included

Ad spend, paid tools, website development and design (the rebrand itself), and travel. I'll recommend whether and when each makes sense.

What I need from you

A 2-hour positioning session with the founders, product access or screenshots, approval rights for customer quotes, and a 30-minute check-in every two weeks.

The first two weeks, if we agree: positioning workshop, messaging draft and the Lippu.fi one-pager live.

Prices exclude VAT. Invoiced monthly in advance.

Seven case studies.
Twenty logos.
Let's let people see them.

Agree the option and the start date, and I'll book the positioning workshop for the first week.
