PLAYER _____

EVERY POINT TELLS YOU SOMETHING

BEFORE THE FIRST SERVE

Welcome

The best players don't just play more. They pay closer attention to each match, to each opponent and to every session on court.

The Match Book is your private record of the game. Plan each match before you walk on court, reflect honestly when you walk off, scout the players you meet again and again, and watch your game sharpen over the season. Every page is hyperlinked: use the tabs on the right, and tap the tennis ball in the corner of any page to return to the index.

i. Before

Fill in the pre-match page the night before or during warm-up: three keys, serve and return plans, and your mindset word.

ii. After

Within an hour of the match, record the score, your key stats and an honest rating. Note what worked and one thing to change.

iii. Scout

Keep a page for every regular opponent. Mark their patterns on the court diagram and log your head-to-head record.

iv. Train

Turn each "what to change" into a practice focus. Use the training log, drill library and coach notes to close the loop.
